INDEPENDENT AUDITOR'S REPORT

Honorable Board of County Commissioners
Nye County, Nevada
Tonopah, Nevada

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Nye County, Nevada, as of and for the year ended June 30, 2010 which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. My responsibility is to express opinions on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standard*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinions.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Nye County, Nevada as of June 30, 2010 and the respective changes in financial position and cash flows, where applicable, thereof, and the respective budgetary comparison for the General Fund, Education Endowment Fund, Special Projects Fund, Endowment Capital Projects Fund, and Repository Oversight Special Revenue Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, I have also issued my report dated February 4, 2011 on my consideration of the County's internal control over financial reporting and my test of its compliance with certain provisions of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of my audit.

The management's discussion and analysis on pages 3 through 9 and schedule of funding progress on page 58 are not required parts of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, I did not audit the information and express no opinion on it.

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Nye County, Nevada's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, I express no opinion on them.

A handwritten signature in black ink, appearing to read "M. J. Smith", is written in a cursive style.

Management's Discussion and Analysis
June 30, 2010

The Management Discussion and Analysis ("MD&A") introduces the financial reports for Nye County, Nevada. The MD&A is designed to give the reader an easy-to-understand overview of the County's financial position and results of operations for the year.

Financial Highlights

The County's primary revenue sources for governmental activities were property taxes \$19,768,556, consolidated taxes \$11,012,860 and Payments Equal to Taxes (related to the proposed national nuclear waste repository) \$8,993,760. These revenue sources comprised 29.30%, 16.33%, and 13.33% respectively, or 58.96% of total governmental activities revenues.

The County's total expenses were \$68,044,272. The greatest expenses were in the General Government function for \$21,335,852 and the Public Safety function for \$22,613,228. Business-type activities contributed \$1,880,177 to total expenses.

At the end of the fiscal year, the unreserved fund balance for the General Fund was \$327,522. This was a decrease of \$2,343,783 from the prior year fund balance.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements which are composed of government-wide financial statements, fund financial statements, and accompanying notes. This report also contains required supplementary information in addition to the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business.

The statement of net assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave).

The government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, judicial, public safety, public works, health and sanitation, welfare, culture and recreation, community support, intergovernmental, other, and interest on long-term debt.

Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds:

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Education Endowment, Special Projects, Capital Projects Endowment, and Repository Oversight, each of which is considered to be a major fund. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds are provided in the combining and individual fund statements and schedules.

The County adopts an annual appropriated budget for each of its governmental funds. A budgetary comparison statement is provided for each of the County's governmental funds to demonstrate compliance with the budget.

Proprietary Funds:

The County maintains two distinct types of proprietary funds.

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses an enterprise funds to account for its water and sewer activities in the Town of Gabbs, water activities in the Town of Manhattan and its County Solid Waste activities.

Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements. The County uses internal service funds to account for the Self-insurance activities.

Fiduciary Funds:

The County's fiduciary funds consist of 1 private purpose trust fund and 17 agency funds. The private trust fund is the Flint Scholarship fund. The agency funds are used to hold monies for other entities or individuals until disposition. The agency funds consist of Pahrump Town, Tonopah Town, Round Mountain Town, Pahrump Library, Amargosa Library, Beatty Library, Tonopah Library, Smoky Valley Library, Smoky Valley Television, Property, Habitat Construction and Mitigation, State of Nevada, Range Improvement, State Medical Indigent, Nye County School District, Beatty General Improvement District and Endangered Species Act.

Notes to Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information including historical information on tax rates for the County's overlapping taxing districts.

It also includes a schedule of budgetary comparisons for both the original and final budgets of the general fund and the various other County funds.

The combining statements and individual fund schedules are presented immediately following the required supplementary information.

As noted earlier, net assets may serve over time as a useful indicator of the County's financial position. Assets exceeded liabilities by \$147,753,340 as of June 30, 2010.

The largest portion of the County's net assets 52.90% reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, etc.); net of any related debt outstanding used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the debt.

The County's restricted net assets represent resources that are subject to restrictions on how they may be used.

The remaining portion of the County's net assets is unrestricted and may be used to meet the County's ongoing obligations to citizens and creditors.

Program revenues included charges for services, fines and forfeitures, certain licenses and permits, special assessments, and both operating and capital grants and contributions.

General revenues consist of taxes and interest. For governmental activities, the largest revenues were ad valorem taxes and the second largest revenue was consolidated taxes. The business-type revenues are from charges for services related to Gabbs Utility, Manhattan Utility, and Solid Waste.

Governmental Funds:

The focus of the County's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the County's financing requirements.

Nye County, Nevada
Management's Discussion and Analysis
June 30, 2010

As of the end of the current fiscal year, the County's governmental funds reported a combined ending fund balance of \$75,467,019. Approximately 9.39% of fund balances \$7,083,339 constitute unreserved undesignated fund balance. The remainder of the fund balance is reserved to indicate that it is not available for new spending because it has already been committed.

General Fund

The General Fund is the chief operating fund of the County. At the end of the current fiscal year, the unreserved fund balance of the General Fund was \$327,522.

Key factors in the change in fund balance in the General Fund are as follows:

Revenues decreased by \$935,195 or 2.64%. Tax revenue increased by \$361,988 or 2.26%, due to increased property values. Intergovernmental revenues decreased by \$1,525,124 or 10.34%, Due to a decrease in consolidated tax revenues of \$1,064,424 or 9.87% and a decrease of federal land lease payment of \$539,215 or 52.25%.

Expenditures increased by \$421,435 or 1.16%. General government expenditures decreased \$357,981 or 2.86%. Public Safety expenditures increased \$275,215 or 1.68% due to an increase in compensation of \$488,334 or 3.46%. Judicial increased \$473,529 or 7.16% due to an increase in compensation and other judicial costs including public defender and court appointed defender fees.

Capital Assets and Debt Administration

Capital Assets

The County's investment in capital assets, net of accumulated depreciation at June 30, 2010, was \$81,932,937 for the governmental activities and \$2,575,357 for the business type activities. Detail by type of activity and asset is summarized in the table below. A summary of changes in capital assets for the year ended June 30, 2010 follows:

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET ASSETS
June 30, 2010

Total fund balance - governmental funds	\$ 75,467,019
--	----------------------

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets net of the related depreciation are not reported in the Governmental Funds financial statements because they are not current financial resources, but they are reported in the statement of net assets.	81,932,937
--	------------

Other long-term assets are not available to pay for current period expenditures and, therefore, are deferred in the funds.	1,148,566
--	-----------

Certain liabilities (such as bonds payable and capital leases payable) are not reported in the Governmental Funds financial statements because they are not due and payable, but they are presented as liabilities in the statement of net assets.	(18,991,498)
--	--------------

Assets and liabilities of the Internal Service Funds are not reported in the Governmental Funds financial statements because they are presented on a different accounting basis, but they are presented as assets and liabilities in the statement of net assets.	<u>87,931</u>

NYE COUNTY, NEVADA
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED June 30, 2010

Net Change in Fund Balance - Governmental Funds	\$ (4,464,063)
--	-----------------------

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net assets and allocated over the estimated useful lives as annual depreciation expenses in the statement of activities.	8,240,617
---	-----------

Property taxes that are collected in time to pay obligations of the current period are reported as revenue in the fund statements. However, amounts that related to prior periods that first become available in the current period should not be reported as revenue in the statement of activities.	87,640
---	--------

The issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts and other similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	1,593,622
--	-----------

The net losses of the Internal Service Funds are not reported in this fund financial statement because they are presented on a different accounting basis (in the proprietary fund financial statements), but they are presented in the statement of activities.	83,607
--	--------

Generally, expenditures recognized in fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred.	<u>(4,861,291)</u>

Notes to Financial Statements

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. Although the County has the option to apply FASB pronouncements issued after that date to its business-type activities and enterprise funds, the County has chosen not to do so. The more significant accounting policies established in GAAP and used by the County are discussed below.

1. Reporting Entity

Nye County, Nevada is a municipality governed by an elected five member board. As required by generally accepted accounting principles, these financial statements present Nye County, Nevada (the primary government) and its component units. There were no component units.

2. Basic Financial Statements

The County's basic financial statements consist of government-wide statements and the fund financial statements. The government-wide statements include a statement of net assets and a statement of activities. The fund financial statements include financial information for the three fund types: governmental, proprietary and fiduciary. Reconciliations between the fund statements, the statement of net assets, and the statement of activities are also included along with statements of revenues, expenditures and changes in fund balances for the County's General Fund and its other major funds.

3. Government-wide Financial Statements

The government-wide financial statements are made up of the statement of net assets and the statement of activities. These statements include the aggregated financial information of the County as a whole, except for fiduciary activity. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. For the most part, the effect of interfund activity has been removed from these statements.

The statement of net assets presents the consolidated financial position of the County at year-end, in separate columns, for both governmental and business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or program is offset by program revenues. Direct expenses are those that are specifically associated with a program or service and are, therefore, clearly identifiable to a particular function. Program revenues include operating grants and contributions and investment earnings legally restricted to support a specific program. Taxes and other revenues properly not included among program revenues are reported instead as general revenues. This statement provides a net cost or net revenue of specific programs and functions within the County. Those functions with a net cost are generally dependent on general-purpose tax revenues, such as property tax, to remain operational.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

4. Fund Financial Statements

The financial accounts of the County are organized on the basis of funds each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts comprised of assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The presentation emphasis in the fund financial statements is on major funds for governmental funds. Major individual governmental funds are required to be reported in separate columns on the fund financial statements. Major funds are determined based on minimum criteria set forth in GASB Statement Number 34. The County may also display other funds as major funds if it believes the presentation will provide useful information to the users of the financial statements.

5. Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Gross receipts and sales taxes are considered "measurable" when in the hands of intermediary collecting governments and are then recognized as revenue. The government considers revenues to be "available" if they are collected within 60 days of the end of the current fiscal period. Anticipated refunds of taxes are recorded as liabilities and reductions of revenue when they are measurable and the payment seems certain. In general, expenditures are recorded when liabilities are incurred. The exception to this rule is that principal and interest on debt service, as well as liabilities related to compensated absences and claims and judgments, are recorded when payment is due.

The major revenue sources of the County include ad valorem (property) taxes and consolidated taxes.

The County reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the County. It is used to account for all resources and cost of operations traditionally associated with governments, which are not required to be accounted for in other funds.

Education Endowment Fund - The Education Endowment Fund is used to account for funds allocated for the educational needs of County residents.

Special Projects Fund - The Special Projects Fund is used to account for funds allocated for the capital improvement and special projects of the County.

Capital Projects Endowment Fund - The Capital Projects Endowment Fund is used to account for funds allocated for the future capital needs of the County.

Repository Oversight Fund - The Repository Oversight Fund is used to account for federal monies received to determine the impacts to the county in the event that a national nuclear waste facility is located within the County.

The County reports the following major enterprise fund:

Solid Waste Fund - The Solid Waste Fund is used to account for garbage disposal throughout the County.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

Additionally the County reports the following fund types:

Proprietary Fund:

Enterprise Fund -

Gabbs Utility Water Fund - The Gabbs Utility Water Fund accounts for the Town of Gabbs delivery of water services.

Gabbs Utility Sewer Fund - The Gabbs Utility Sewer Fund account for the Town of Gabbs delivery of sewer services.

Manhattan Utility - The Manhattan Utility Water Fund accounts for the Town of Manhattan delivery of water services.

Internal Service Fund - The Internal Service Fund is used to account for the financing of goods or services provided by one department to other departments of the County on a cost reimbursement basis. Currently, there is one Internal Service Funds.

Self Insurance Fund - The Self Insurance Fund is used to account for property damage claims of the County.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989 are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow this subsequent private-sector guidance.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue for the Self Insurance Fund is insurance proceeds for damage claims. Expenses are for property repair or replacement. The principal operating revenues of the Gabbs and Manhattan Utility Funds are customer charges. Expenses are those required to provide the service. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. The principal operating revenues of the Solid Waste fund are fees charged for use of the landfill. Expenses are those required to provide the service.

Fiduciary Funds:

Private Purpose Trust Fund- The F.H. Flint Scholarship Trust Fund is used to account for funds held in trust for educational scholarships of qualified County residents.

Agency Funds - The Agency Funds are used to account for assets held by the County in an agency capacity for others and cannot be used to support the government's own programs.

6. Assets, Liabilities, and Equity

a. Pooled Cash and Investments

The County maintains a cash and investment pool that is available for use by all funds. At June 30, 2010, this pool is displayed on the financial statements as "Pooled cash and investments".

The County's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments with original maturities of three months or less from the date of acquisition.

Investments are stated at fair value on the balance sheet. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale. Changes in the fair value of County investments are part of investment income which is included in revenue from local sources on the financial statements. **(See Note D1)**

Nevada Revised Statutes authorize the County to invest in:

1. Obligations of the U.S. Treasury and U.S. agencies in which the maturity dates do not extend more than 10 years from the date of purchase.
2. Negotiable certificates of deposit issued by commercial banks or insured savings and loan associations.
3. Nonnegotiable certificates of deposit issued by commercial banks, credit unions or insured savings and loans collateralized for amounts in excess of depository insurance.
4. Certain securities issued by local governments within Nevada.
5. Eligible bankers' acceptances that do not exceed 180 days maturity and do not exceed 20 percent of the investment portfolio.
6. Commercial paper with a rating of A-1 or P-1 that does not exceed 270 days maturity and does not exceed 20 percent of the portfolio.
7. The State of Nevada's Local Government Investment Pool.
8. Repurchase agreements that are collateralized at 102 percent of the repurchase price and do not exceed 90 days maturity. Securities used for collateral must meet the criteria listed above.
9. Money market mutual funds which are rated as "AAA" or its equivalent and invest only in securities issued by the Federal Government, U.S. agencies; master notes, bank notes or other short-term commercial paper rated A-1 or P-1 ; or repurchase agreements fully collateralized by such securities.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Assets, Liabilities, and Equity (Continued)

b. Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "interfund receivables/payables" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds".

Advances between funds are offset by a fund balance reserve account in applicable governmental funds to indicate they are not available for appropriation and are not expendable available financial resources.

Taxes on real property are levied in July each year and are due on the third Monday in July. They can be paid in quarterly installments in August, October, January, and March. In the event of nonpayment, the County Treasurer is authorized to hold property for two years, subject to redemption upon payment of taxes, penalties, and costs, together with interest at the rate of 10 percent per year from the date the taxes were due until paid. If delinquent taxes are not paid within the two year redemption period, the County Treasurer obtains a deed to the property free of all encumbrances. Upon receipt of a deed, the County Treasurer may sell the property to satisfy the tax lien.

Article X, Section 2, of the Constitution of the State of Nevada limits the total taxes levied by all overlapping governmental units within the boundaries of any County (i.e., the County, the County School District, the State, and any other City, Town, or special District) to an amount not to exceed \$5 per \$100 of assessed valuation of the property being taxed.

The Nevada Legislature enacted provisions whereby the combined overlapping tax rate was limited to \$3.64 per \$100 of assessed valuation. (See Note D2)

c. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Payments to vendors that will benefit periods beyond June 30, 2010 are recorded as prepaid expenditures in the fund financial statements. They are recorded as prepaid expenses in the government-wide financial statements.

d. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$3,000 and an estimated useful life in excess of one year. If purchased or constructed, capital assets are recorded at historical cost or estimated historical cost and updated for additions and retirements during the year. Donated capital assets are valued at their estimated value as of the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Notes to Financial Statements (Continued)
June 30, 2010

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Assets, Liabilities, and Equity (Continued)

d. Capital Assets (Continued)

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

<u>Capital Assets</u>	<u>Years</u>
Various Other Equipment	5-20
Vehicles	8
Buildings and Improvements	25-50
Infrastructure	25-50

GASB No. 34 requires the County to report and depreciate new infrastructure assets. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc. Neither their historical cost nor related depreciation has historically been reported in the financial statements. The retroactive reporting of infrastructure is subject to an extended implementation period and was first effective for fiscal years ending in 2008. The County is required to capitalize and report its major general infrastructure assets acquired in fiscal years ending after June 30, 1980. In addition, infrastructure assets acquired before June 30, 1980 that received significant reconstruction must be capitalized.

e. Compensated Absences

Vested or accumulated vacation and sick leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide financial statements. No expenditure is reported for these amounts in the fund financial statements (See Note D5). Vacation leave and sick leave included in accrued liabilities and recorded as expenditures in governmental fund types is the amount normally liquidated from "available spendable resources".

In proprietary funds, compensated absences are recorded when the liabilities are incurred. In governmental funds, the current portion is recorded as a payroll expenditure. The estimated long-term liability for compensated absences is accounted for in the government-wide financial statements.

f. Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. Deferred losses related to the refunding of debt are reported as a deferred charge component of bonds payable and are amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

g. Fund Equity

In the fund financial statements, reservations of fund balance represent amounts that are not appropriable or are legally segregated for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Assets, Liabilities, and Equity (Continued)

h. Net Assets

In the government-wide statements, net assets on the Statement of Net Assets include the following:

(i) Invested in Capital Assets, net of Related Debt

This is the component of net assets that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction or improvement of those assets.

(ii) Restricted Assets

This is the component of net assets that reports the constraints placed on the use of assets by either external parties and/or enabling legislation. Designations of fund balance represent tentative management plans that are subject to change.

(iii) Unrestricted

This is the component of net assets that is the difference between the assets and liabilities not reported in Invested in Capital Assets, Net of Related Debt and Restricted Assets.

It is the County's policy to expend restricted resources first and use unrestricted resources when the restricted resources have been depleted.

i. Comparative Data/Reclassifications

Comparative total data for the prior year has been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the County's financial position and operations. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

j. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of certain differences between the governmental funds balance sheet and the government-wide statement of net assets

The governmental funds balance sheet includes a reconciliation between fund balances - total governmental funds and net assets - governmental activities as reported in the government-wide statement of net assets. One element of the reconciliation explains that "certain liabilities (such as bonds payable and capital lease payable) are not reported in the fund financial statement because they are not due and payable." The details of this difference are as follows:

Bond payable	\$ 3,565,000
Interest payable	113,437
Capital lease payable	2,234,846
OPEB obligation	8,601,623
Compensated absences	<u>4,476,592</u>
Net adjustment to reduce fund balance - total governmental funds	
to arrive at net assets - governmental activities	<u>\$ 18,991,498</u>

2. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net assets and allocated over their estimated useful lives as annual depreciation expense in the statement of activities. The details of this difference are as follows:

Capital outlay	\$ 12,545,421
Disposed or transferred assets	(79,785)
Depreciation expense	<u>(4,225,019)</u>
Net adjustment to increase net changes in fund balances - total governmental	
funds to arrive at changes in net assets of governmental activities	<u>\$ 8,240,617</u>

Another element of that reconciliation states that "The issuance of long-term debt (i.e., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this difference are as follows:

Debt issued or incurred:	
General obligation debt principal payments	<u>\$ 1,593,622</u>

Another element of that reconciliation states that "Generally, expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred." The details of this difference are as follows:

Accrued interest	\$ 34,317
OPEB obligation	(4,274,893)
Compensated absences	<u>(620,715)</u>
Net adjustment to decrease net change in fund balances -	
governmental funds to arrive at change in net assets of	
governmental activities	<u>\$ (4,861,291)</u>

C. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

1. Budgetary Information

The County uses the following procedures to establish, modify, and control the budgetary data presented in the financial statements:

- a. Prior to April 15, the County submits to the Nevada State Department of Taxation the tentative budget for the next fiscal year, commencing on July 1. The budget, as submitted, contains the proposed expenditures and means of financing them.
- b. The Nevada State Department of Taxation notifies the County of its acceptance of the budget.
- c. Public hearings are conducted on the third Monday in May.
- d. After all changes have been noted and hearings closed, the County Commissioners adopt the budget on or before June 1.
- e. Whenever such an action does not increase the total appropriation for any fiscal year and is not in conflict with other statutory provisions, the financial officer may transfer appropriations within any function or program or between functions or programs within a fund, if:
 1. The governing body is advised of the action at the next regular meeting; and
 2. The action is recorded in the official minutes of the meeting.
- f. Increases to a fund's budget (augmentations) other than by transfer are accomplished through formal Commission action.
- g. Statutory regulations require budget control to be exercised at the function level within the General Fund or at the fund level for other funds.
- h. All appropriations lapse at the end of the fiscal year. Encumbrances are re-appropriated in the ensuing fiscal year.
- i. Budgets as originally adopted were augmented (increased) in the following funds:

The fund deficit will be eliminated by a reduction in expenditures in the ensuing year.

D. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

1. Pooled Cash and Investments

At year end, the County's carrying amount of deposits was \$10,016,395 and the bank balance was \$12,631,823. Of the bank balance, \$250,000 was covered by Federal Depository Insurance, and the remaining balance was covered by collateral held by the State Treasurer in the County's name.

The Nye County Treasurer administers an investment pool in accordance with Nevada Revised Statutes Chapter 355.168. At June 30, 2010 this pool is displayed by fund type on the financial statement as "Pooled Cash and Investments". The pool is available for use by all funds of the County. Any local government within Nye County whose money is held under the custody of the County Treasurer may invest its money with the investment pool. The County Treasurer may invest the money of the investment pool in investments which have been authorized as investments by Nevada Revised Statutes (**See Note A6a**).

Interest is apportioned to the funds within the pool monthly based on the fund's average balance for the month.

Investments are stated at fair value.

1. Pooled Cash and Investments (Continued)

The Nevada State Treasurer's Local Government Investment Pool is an agency fund of the State administered by the State Treasurer. Any local government may deposit its money with the fund. The State Treasurer may invest the money in the fund in investments which have been authorized as investments for local governments by Nevada Revised Statutes and in time certificates of deposit. (See Note A6a)

At the end of each month the State Treasurer computes the portion of the total deposits in the fund which were attributable during the month to each local government. The proportion is applied to the total amount of interest received during the month on invested money of the fund and credited to each participating local government less the proportionate amounts of the assessments for the expenses of administration.

The fair value of the County's investments was determined by market quotes as of June 30, 2010.

Investment income earned from pooled investments of funds that is assigned to another fund was as follows:

<u>TO</u>	<u>FROM</u>	<u>AMOUNT</u>

1. Pooled Cash and Investments (continued)

Investments held by Wells Fargo Bank are made through the NVEST program sponsored by the Nevada State Treasurer. Through this program, local governments may invest in longer term securities than available through the Local Government Investment Pool. The County entered into this program March 21, 2006. StableRiver Capital Management is the portfolio manager. Securities purchased through this program are held in a separate safekeeping account at Wells Fargo Bank and registered in the name of the County. The County's corporate securities are rated by Standard & Poors's and Moody's rating agencies as indicated above. The U.S. Government and Agencies' securities are backed by the U.S. government and unrated.

E. OTHER INFORMATION

1. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions, injuries to employees; and natural disasters. The County joined together with other local governments in the Nevada Public Agency Insurance Pool (NPAIP), a public entity risk pool currently operating as a common risk management and insurance program for member local governments. The county pays an annual premium to NPAIP for its property, casualty, crimes, and machinery insurance coverage. NPAIP is self sustaining through member premiums and reinsures through commercial companies for claims in excess of \$200,000 property and crimes, casualty \$500,000 each and every insured event. As a participatory member the maintenance deductible is \$50,000 for each and every loss and/or claim and /or event.

The County participates in the Public Agency Compensation Trust (PACT). Premiums paid to PACT cover workers compensation claims against the County. Premiums are based on a percentage of wages paid.

The County is self insured for unemployment claims. Payments are made from the General Fund to cover claims.

The County purchases health care coverage for its employees from a commercial carrier.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. At June 30, 2010, no claims liabilities were recorded.

2. Contingent Liabilities

Landfill - Closure and Post Closure Costs

State and federal laws and regulations require the County to place a final cover on its landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at the sites for thirty years after closure. The closure and post closure care costs will be paid only near or after the date that the landfills stop accepting waste.

As of June 30, 2010, the estimated liability to date for closure and post closure costs is \$1,118,858. This represents the cumulative amount reported to date based on percent use of the estimated liability of \$2,567,682 as the remaining capacity is used. Actual costs may be higher due to inflation, changes in technology or changes in regulations.

The County is operating four landfills as follows:

	<u>Estimated Site Life Remaining</u>
Pahrump	10 years
Tonopah	28 years
Round Mountain	23 years

The County has assessed a \$12 fee for each parcel of land to be used for closure and postclosure costs. As of June 30, 2010 \$5,737,787 has been placed in a restricted account for future closure and postclosure costs in the Solid Waste Fund. The county entered into a trust agreement with a trustee bank in which the county placed funds for future closure and postclosure costs of the Pahrump landfill. The amount placed into the trust account as of June 30, 2010 is \$ 757,230.

Litigation

The County is involved in various legal actions. The outcome of these issues is not presently determinable. It is the opinion of the counsel that the resolution of these matters will not have an adverse material effect on the financial condition of the County.

3. Retirement Plan

Plan Description. Nye County, Nevada is a public employer contributing to the Public Employee Retirement System of the State of Nevada (PERS), a cost sharing multi-employer defined benefit pension plan. The plan is administered by the State of Nevada Retirement System.

Benefits as required by Nevada Revised Statutes are determined by the number of years of accredited service at the time of retirement and the member's highest average compensation in any 36 consecutive months. Benefit payments to which participants may be entitled under the Plan include pension benefits, disability benefits and death benefits.

Monthly benefit allowances for members are computed at 2.5% for each accredited year of service prior to July 1, 2001 and 2.67% thereafter, to a maximum of 30 years, times average compensation. PERS offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his/her life and various optional monthly payments to a named beneficiary after his/her death. Regular members are eligible for retirement at age 65 with 5 years of service or age 60 with 10 years of service or any age with 30 years of service. Police and fireman are eligible for retirement at age 65 with 5 years of accredited police and fire service or age 55 with 10 years of service or at age 50 with 20 years of accredited police and fire service. Benefits fully vest with 5 years of service.

Financial statements for the Plan are available by calling (775)687-4200 or writing to:
Public Employees' Retirement System of Nevada
693 W Nye Lane
Carson City, NV 89703-1599

Funding Policy. Contribution rates are established by NRS 286.410. The County's contributions are based on the actuarially determined statutory rate. The County is obligated to contribute all amounts due under the Plan. The contribution rate for fire and police employees is 37.00 percent, and 21.50 percent for regular employees. The contribution requirement for the year ended June 30, 2010 was \$6,165,544. The contributions were equal to the required contributions for the year. The contribution requirement for the years ended June 30, 2008 and 2007 were \$5,236,544 and \$4,836,612, respectively. These contributions were equal to the required contribution for the year.

The County has no liability for unfunded obligations of the system as provided by Nevada Revised Statutes Chapter 286.110

4. Postemployment Health Care Plan

Plan Description The County subsidizes eligible retirees' contributions to the Public Employees' Benefits Plan (PEBP), an agent multiple-employer defined benefit postemployment healthcare plan administered by the State of Nevada. NRS 287.041 assigns the authority to establish and amend benefit provisions to the PEBP nine-member board of trustees. County employees who meet the eligibility requirement for retirement within the Nevada Public Employee Retirement System have the option upon retirement to enroll in coverage under the PEBP and the subsidy provided by the County is determined by their number of years of service. The PEBP issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employee's Benefits Program, 901 S. Stewart Street, Suite 1001, Carson City, NV, 89701, by calling (775) 684-7000, or by accessing the website at www.pebp.state.nv.us/informed/financial.htm.

Funding Policy NRS 287.046 establishes the subsidies to be contributed toward the premium costs of the eligible retired County employees. Plan members receiving benefits have their monthly contributions deducted from their pension checks based on the health plan chosen by the retiree as reduced by the amount of the subsidy. Retirees qualify for a subsidy of \$102.62 at five years of service \$564.41 at 20 years of service with incremental increases for each year of service between. The contribution requirements of plan members and the County are established and amended by the PEBP board of trustees. As a participating employer, the County is billed for the subsidy on a monthly basis and is legally required under NRS 287.023 to provide for it. For fiscal year 2010, the County contributed \$760,289 to the plan for current premiums. The County did not prefund any future benefits.

Annual OPEB Cost and Net OPEB Obligation The County's annual other postemployment benefit (OPEB) cost (expense) for the plan is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For fiscal year 2010 the District's annual OPEB cost (expense) of \$5,087,019 for the PEBP was equal to the ARC. The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 is as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost (Unit Credit Cost Method)</u>	<u>% of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
6/30/2010	\$ 5,087,019	16%	\$ 4,274,893
6/30/2009	\$ 5,087,019	15%	\$ 4,326,730

4. Postemployment Health Care Plan (Continued)

The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation to the PEBP:

	<u>2010</u>	<u>2009</u>
Annual Required Contribution	\$ 5,087,019	\$ 5,087,019
Interest on net OPEB obligation	-	-
Adjustment to annual required contribution	-	-
Annual OPEB cost (expense)	5,087,019	5,087,019
Contributions made	<u>812,126</u>	<u>760,289</u>
Increase in net OPEB obligation	4,274,893	4,326,730
Net OPEB obligation - beginning of the year	<u>4,326,730</u>	-
Net OPEB obligation - end of year	<u>\$ 8,601,623</u>	<u>\$ 4,326,730</u>

This is the District's first year implementing GASB Statement Number 45 requiring the above mentioned information and as such there is no comparative data for past years.

Funded Status and Funding Progress The District's most recent actuarial valuation was as of July 1, 2008 and as of the end of the fiscal year the District has not prefunded any portion of the plan. The actuarial accrued liability (AAL) for benefits was \$60,816,075 and having not funded the obligation the District currently has no associated assets to offset this liability. Because of this the unfunded actuarial accrued liability (URAL) is equal to the AAL. The covered payroll (annual payroll of active employees covered by the plan) was \$23,544,589 and the ratio of the UAAL to the covered payroll was 258.30%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2008 actuarial valuation, the unit credit cost actuarial cost method was used. The actuarial assumptions included a 4 percent investment rate of return which is the target rate of return for the Nevada Public Employee Retirement System. This rate is used since state law allows trusts to be created within the retirement system for investing assets associated with other post employment benefits. If the District ultimately chooses to fund the plan they would fund it through a trust with the assets invested by PERS. An annual healthcare cost trend rate of 8 percent is used initially, reduced by decrements to an ultimate rate of 5 percent after seven years. A standard 3.5 percent inflation rate was used throughout.

Changes in state law have significantly impacted the assumptions in the current year. As of September 1, 2008 the plan will no longer be available to those actively employed past this date. This increased the assumption for potential retirees in the current year and significantly reduced the present value of benefits and thus the actuarial liability.

The URAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2010 is 28 years.

5. Subsequent Events

In August of 2010, the County issued \$2,635,000 of Series 2010A General Obligation (Limited Tax) Bonds, a \$21,830,000 of Series 2010B General Obligation (Limited Tax) Bonds to be used for the construction of a new detention facility. The County made an election to treat the 2010B bond as taxable direct pay Build America Bond.
