INDEPENDENT AUDITOR'S REPORT

Honorable Board of County Commissioners
Nye County, Nevada
Tonopah, Nevada

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Nye County, Nevada (the County), as of and for the year ended June 30, 2016, and the related notes to the basic financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparisons for the General Fund and Road Fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3-10, Schedule of Funding Progress on page 67, Schedule of the County's Contributions to the Public Employees' Retirement System of the State of Nevada on page 68, and Schedule of the County's Proportionate Share of the Net Pension Liability Public Employees' Retirement System of the State of Nevada on page 69 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Prior Year Comparative Information

I also have previously audited, in accordance with auditing standards generally accepted in the United States of America, the County's basic financial statements for the year ended June 30, 2015, which are not presented with the accompanying financial statements and I expressed unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements as a whole. The combining and individual fund financial statements and schedules, for the year ended June 30, 2015, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2015 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the 2015 combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements from which they have been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, I have also issued my report dated November 29, 2016, on my consideration of the County's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

NYE COUNTY, NEVADA
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

As management of Nye County, Nevada, we offer readers of financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2016. The Management Discussion and Analysis (“MD&A”) introduces the financial reports. The MD&A is designed to give the reader an easy-to-understand overview of the financial position and results of operations for the year. The MD&A is separated into Financial Highlights, an Overview of the Financial Statements, and a Government-Wide Financial Analysis.

Financial Highlights

The government-wide net position increased during the year from \$83,467,323 to \$86,075,169. (See page 6 and page 12)

The primary revenue sources for governmental activities were property taxes of \$18,800,840, consolidated taxes of \$14,000,250, and Fuel Taxes of \$6,712,754. These revenue sources comprised 31.85%, 23.72%, and 11.37%, respectively, or 66.94%, of total governmental activities revenues. (Page 6 and page 12)

The total government-wide expenses were \$62,292,641. The greatest expenses were in the General Government function for \$18,519,564 and the Public Safety function for \$17,688,551. Business-type activities contributed an additional \$5,077,820 of expenses. (Page 6 and page 12)

At the end of fiscal year 2016, the governmental funds reported a combined fund balance of \$57,979,790, an increase of \$2,899,082 when compared to the previous year. (Page 15)

At the end of the fiscal year, the fund balance for the General Fund was \$6,689,528. (Page 15)

Overview of the Financial Statements

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position is improving or deteriorating.

The Statement of Activities presents information showing how the net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave).

The government-wide financial statements distinguish functions that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities include general government, judicial, public safety, public works, health, sanitation, welfare, culture and recreation, community support, intergovernmental, other, and interest on long-term debt.

Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds:

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and in the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General, Road, and Capital Projects funds, each of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds are provided in the combining and individual fund statements and schedules.

The County adopts an annual appropriated budget for each of its governmental funds. A budgetary comparison statement is provided for each of the governmental funds to demonstrate compliance with the budget.

Proprietary Funds:

Two distinct types of proprietary funds are maintained.

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Enterprise funds are used to account for water and sewer activities in the Town of Gabbs, water activities in the Town of Manhattan, ambulance services for the Town of Pahrump, and solid waste activities.

Internal service funds are an accounting device used to accumulate and allocate costs internally among the various functions. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements. The County has one internal service fund that is used to account for the self-insurance activities. The fund was inactive during the current year.

Fiduciary Funds:

The County's fiduciary funds consist of 18 agency funds and the private trust F.H. Flint Scholarship fund. The agency funds are used to hold monies for other entities or individuals until disposition. The agency funds consist of Tonopah Town, Round Mountain Town, Amargosa Town, Pahrump Library, Amargosa Library, Beatty Library, Tonopah Library, Smoky Valley Library, Property, Habitat Conservation and Mitigation, State of Nevada, Range Improvement, State Medical Indigent, Nye County School District, Beatty General Improvement District, Victims Restitution, Nye Regional Hospital, and Endangered Species Act.

Notes to Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

As noted earlier, net position may serve over time as a useful indicator of the County's financial position. Assets exceeded liabilities by \$86,075,169 as of June 30, 2016.

The largest portion of the net position reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, etc.), net of any related debt outstanding used to acquire those assets. These capital assets are used to provide services to citizens; consequently, these assets are not available for future spending. Although the investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the debt.

The restricted net positions represent resources that are subject to restrictions on how they may be used.

The total net position in governmental activities of \$74,317,803 includes negative unrestricted net assets totaling \$(69,530,765). Portions of total net position are subject to external restrictions as to how they may be used. In the current fiscal year, restricted assets include assets restricted for capital projects of \$17,879,943, general government of \$8,622,572, judicial of \$2,166,888, public safety of \$4,492,175, public works of \$11,815,049, culture and recreation of \$1,510,661, and for other purposes of \$3,159,344. Program revenues include charges for services, fines and forfeitures, certain licenses and permits, special assessments, and both operating and capital grants and contributions.

General revenues consist of taxes, miscellaneous, and investment income. For governmental activities, the largest revenues were ad valorem taxes and the second largest revenue was consolidated taxes. The business-type revenues are from charges for services related to Gabbs Utility, Manhattan Utility, Pahrump Ambulance, and Solid Waste.

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements.

Financial Analysis of the Governmental Funds

The focus of the governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as it represents the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the County itself, or a group or individual that has been delegated authority to assign resources to use for particular purposes by the County Commissioners.

As of the end of the current fiscal year, the governmental funds reported a combined ending fund balance of \$57,979,790,(page 13) an increase of \$2,899,082, (Page 15) or 5.26%, from the prior year. Fund balance components have been classified as nonspendable, restricted, committed, assigned, and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed on the use of the resources of each fund. Restricted fund balance is \$49,646,632,(Page 13) or 85.64%, of total. Spending of these resources is constrained by externally imposed (statutory, bond covenant, or grantors) limitations on their use. The largest restricted fund balances include \$17,879,943 for capital projects, \$11,815,049 for public works, and \$8,622,572 for general government. (Page 13)

Committed fund balance is \$7,506,189, or 12.95%, of total fund balance with spending constrained by the Board of County Commissioners. Committed balances in the special revenue funds are primarily due to revenues directed by the Commission to those funds to support programs. The largest committed fund balances include \$ 5,800,000 for fund stabilization (working capital needs) \$1,217,860 for general government and \$392,197 for public works. (Page 13)

Major Governmental Funds:

General Fund: The General Fund is the chief operating fund of the County. At the end of the current fiscal year, the fund balance of the General Fund was \$6,689,528, an increase of \$5,167,902 from the prior year. (Page 70-71)

Revenues increased by \$662,821, or 2.10%. Tax revenue decreased by \$151,571, or 1.21%, due to a decrease in net proceeds and property taxes. Intergovernmental revenues increased by \$1,008,144, or 6.68%, due to an increase in consolidated (sales) tax. Fines and forfeitures increased \$179,541, or 32.09%, due to an increase in fines and forfeited bail collections. Miscellaneous revenues increased by \$141,007, or 11.33%. (Page 72 to 74)

Expenditures decreased by \$1,510,716, or 4.50%. General government expenditures decreased by \$108,791, or 0.88%, due to a reduction in county planner and county administrator expenditures. Public safety expenditures decreased by \$1,032,531, or 7.66%, due to a reduction in salaries and wages and employee benefits for the sheriff's department and emergency management. Community support expenditures decreased by \$151,137, or 100%, due to the elimination of natural resource and senior nutrition expenses. Health expenditures decreased by \$220,809, or 37.26%, due to a reduction in animal shelter costs. (Page 75 to 80)

Road Fund: The Road Fund had a fund balance at the end of the year of \$2,469,361, an increase of \$156,551, or 6.77%. Revenues decreased by \$613,644, or 14.27%, due to a settlement in the prior year. Expenditures decreased by \$1,492,473, or 20.78%, primarily due to capital projects expenditures during the prior year and a reduction of services and supplies expenses. (Page 82 to 83)

Capital Projects Fund: The Capital Projects Fund had a fund balance at the end of the year of \$13,113,836, an increase of \$12,445,046. Revenues decreased by \$201,056 due to the elimination of property taxes collected for this fund. Expenditures increased by \$648,900 primarily due to capital projects expenditures. Transfers into the fund for the year of \$13,080,938 were due to the closing of several funds including \$4,980,488 from Endowment Capital Projects, \$662,635 from Emergency Endowment, \$752,441 from Health Endowment, and \$6,648,971 from Educational Endowment funds and another \$36,403 from investment income from other funds as listed in Note D1. (Page 85)

Major Enterprise Funds:

Solid Waste Fund: The Solid Waste Fund net position at the end of the year was \$9,399,848, an increase of \$673,128 over the prior year. Operating revenues decreased by \$64,641, or 3.29%. Operating expenditures decreased by \$9,432, or 0.66%, due to a decrease in service and supplies expenses. (Page 87)

NYE COUNTY, NEVADA
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

Major Enterprise Funds:

Pahrump Ambulance Fund: The Pahrump Ambulance Fund net position at the end of the year was (\$1,684,769), an increase of \$259,628 over the prior year. Operating revenues increased by \$257,436, or 7.71%. Operating expenditures decreased by \$586,861, or 14.94%, due to a decrease in bad debt. (Page 90)

General Fund Budgetary Highlights

Original budget compared to final budget. During the year there was an amendment to increase the original estimated revenues for consolidated taxes by \$1,000,000.

Final budget compared to actual results. The most significant differences between estimated revenues and actual revenues were as follows:

Revenues in the General Fund were more than budget by \$716,908. Revenues received for taxes, licenses and permits, intergovernmental, fines and forfeitures, and miscellaneous were more than budgeted for the year by \$600,816, \$93,466, \$175,286, \$288,984, and \$12,827, respectively. (Page 71)

Total actual expenditures for the General Fund during fiscal year 2016 were approximately \$872,443 less than budgeted. The functions under budget were general government by \$7,507, judicial by \$369,839, public safety by \$386,494, public works by \$11,952, and health by \$5,205. (Page 71)

Capital Assets and Debt Administration

Capital Assets (Page 50 and 51)

The County's investment in capital assets, net of accumulated depreciation, at June 30, 2016, was \$116,937,712 for the governmental activities and \$5,707,638 for the business-type activities. Detail by type of activity and asset are summarized in the tables below. A summary of changes in capital assets for the year ended June 30, 2016, follows:

The debt increased \$4,020,845 for governmental activities during the current fiscal year. The reason for the increase was an increase in net pension obligations and OPEB obligations.

The debt increased by \$696,173 for business-type activities during the current fiscal year. The reasons for the increase were the notes payable for the Gabbs Sewer utility system, net pension obligations, landfill closure costs, and compensated absences.

Per Nevada Revised Statutes Chapter 244A.059, the debt limitation for the County is equal to 10 percent of the assessed valuation of property, excluding motor vehicles for the current year. The debt limitation currently applicable at June 30, 2016, was \$133,437,749. Per Nevada Revised Statutes Chapter 269.425, the debt limitations for the unincorporated towns are as follows: Beatty Town \$3,830,501, Gabbs Town \$2,561,494, Manhattan Town \$555,246 and Pahrump Town \$180,767,510. NYE COUNTY, NEVADA
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
June 30, 2016

Total fund balance - governmental funds **\$ 57,979,790**

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets net of the related depreciation are not reported in the Governmental Funds financial statements because they are not current financial resources, but they are reported in the statement of net position. 116,937,712

Other long-term assets are not available to pay for current period expenditures and, therefore, are deferred in the funds. 339,820

Certain liabilities (such as bonds payable and capital leases payable) are not reported in the Governmental Funds financial statements because they are not due and payable, but they are presented as liabilities in the statement of net position. (50,164,510)

Assets and liabilities of the Internal Service Funds are not reported in the Governmental Funds financial statements because they are presented on a different accounting basis, but they are presented as assets and liabilities in the statement of net position. 36,775

The County's proportionate share of net pension assets and liabilities as well as pension-related deferred outflows and deferred inflows of resources are recognized in the government-wide statements and include:

Deferred outflows from pension activity	7,272,545
Net pension liability	(49,052,138)
Deferred inflows from pension activity	(9,032,191)

Total net position - governmental activities **\$ 74,317,803**

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED June 30, 2016**

Net Change in Fund Balance - Governmental Funds	\$ 2,899,082
--	---------------------

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net position and allocated over the estimated useful lives as annual depreciation expenses in the statement of activities.

(375,413)

Property taxes that are collected in time to pay obligations of the current period are reported as revenue in the fund statements. However, amounts that relate to prior periods that first become available in the current period should not be reported as revenue in the statement of activities.

(43,383)

The issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and other similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

905,521

The net losses of the Internal Service Funds are not reported in this fund financial statement because they are presented on a different accounting basis (in the proprietary fund financial statements), but they are presented in the statement of activities.

630

Generally, expenditures recognized in fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred.

(2,995,244)

Net differences between pension system contributions recognized in the fund statement of revenues, expenditures, and changes in fund balance and the statement of activities.

NYE COUNTY, NEVADA
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2016

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

1. Reporting Entity

Nye County, Nevada, is governed by an elected five-member board. As required by generally accepted accounting principles, these financial statements present Nye County, Nevada (the primary government), and its component units. Blended component units, although legally separate entities are, in substance, part of the County's operations. Thus, blended component units are appropriately presented as funds of the primary government.

2. Blended Component Units

Component units are legally separate organizations for which the County is financially accountable. Nye County Water District, Beatty Town, Gabbs Town, Manhattan Town, and Pahrump Town are all component units that are part of the County's reporting entity because the County is financially accountable for these entities. Financial accountability is determined primarily by the fact that as the governing body, the County's Board of Commissioners can impose its will on significant aspects of the operations of these entities. These entities are presented as blended component units since the operations of these entities are considered part of County operations.

3. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the County and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support.

4. Basis of Presentation - Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the County's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds (enterprise funds), and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

The Statement of Net Position presents the consolidated financial position of the County at year-end, in separate columns, for both governmental and business-type activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or programs are offset by program revenues. Direct expenses are those that are specifically associated with a program or service and are, therefore, clearly identifiable to a particular function. Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other revenues properly not included among program revenues are reported instead as general revenues. This statement provides a net cost or net revenue of specific programs and functions within the County. Those functions with a net cost are generally dependent on general-purpose tax revenues, such as property tax, to remain operational.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Basis of Presentation - Fund Financial Statements

The financial accounts of the County are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts comprised of assets, liabilities, deferred outflows and inflows, fund equity, revenues, and expenditures or expenses, as appropriate. Separate financial statements are provided for governmental funds and proprietary funds.

The fund financial statements provide information about the County's funds, including its fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary (enterprise), and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The County reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the County. It is used to account for all resources and cost of operations traditionally associated with governments, which are not required to be accounted for in other funds.

Road Fund - The Road fund is used to account for revenues and expenditures utilized to maintain County roads.

Capital Projects Fund - The Capital Projects Fund is used to account revenues set aside for capital improvement.

The County reports the following major proprietary fund:

Solid Waste Fund - The Solid Waste Fund is used to account for garbage disposal throughout the County.

Pahrump Ambulance Fund - The Pahrump Ambulance Fund is used to account for emergency services provided to the citizens of the Pahrump Township.

The County reports the following internal service fund:

Self Insurance Fund – The Self Insurance Fund is used to account for property damage claims. The fund was inactive during the fiscal year.

Additionally, the County reports the following fiduciary funds:

Private Purpose Trust Fund - The F.H. Flint Scholarship Trust Fund is used to account for funds held in trust for educational scholarships of qualified County residents.

Agency Funds – The Agency Funds are used to account for assets held by the County in an agency capacity for others and cannot be used to support the government's own programs.

During the course of operations the County has activity between funds for various purposes. Any residual balances outstanding at year-end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in the governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e. enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Gross receipts and sales taxes are considered “measurable” when in the hands of intermediary collecting governments and are then recognized as revenue. The government considers revenues to be “available” if they are collected within 60 days of the end of the current fiscal period. Anticipated refunds of taxes are recorded as liabilities and reductions of revenue when they are measurable and the payment seems certain. In general, expenditures are recorded when liabilities are incurred. The exception to this rule is that principal and interest on debt service, as well as liabilities related to compensated absences and claims and judgments, are recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

The major revenue sources of the County include consolidated taxes (including sales tax), fuel taxes, intergovernmental revenue, and property taxes.

Property taxes, sales taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the County.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenue for the Self Insurance Fund is insurance proceeds for damage claims. Expenses are for property repair or replacement. The principal operating revenues of the Gabbs and Manhattan Utility Funds are customer charges. Expenses are those required to provide the service. The principal operating revenues of the Solid Waste Fund are fees charged for use of the landfill. Expenses are those required to provide the service. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

7. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for governmental funds.

a. The statutes provide for the following timetable in adoption of budgets:

- (i) Before April 15, the County submits to the Nevada State Department of Taxation a tentative budget for the upcoming fiscal year. The tentative budget includes proposed expenditures and the means to finance them.
- (ii) Before the third Monday in May, a minimum of seven days' notice of public hearing on the final budget is published in a local newspaper.
- (iii) On or before June 1, the County Commissioners must adopt a final budget.

b. NRS 354.598005 (1) - provides that the County Commissioners may augment the budget at any time by a majority vote of the Commissioners providing the Commissioners publish notice of its intention to act in a newspaper of general circulation in the county at least three days before the date set for adoption of the resolution.

c. Nevada Revised Statute 354.598005 (5) allows appropriations to be transferred between functions, funds or contingency accounts if such a transfer does not increase the total appropriation for any fiscal year and is not in conflict with other statutory provisions. The County Comptroller may transfer appropriations within any function. The County Comptroller may also transfer appropriations between functions or programs within a fund, if the County Commissioners are advised of the action at the next regular meeting; and the action is recorded in the official minutes of the meeting. The County Commissioners may authorize the transfer of appropriations between funds or from the contingency account if the County Commissioners announce the transfer of appropriations at a regularly scheduled meeting and sets forth the exact amounts to be transferred and the accounts, functions, programs and funds affected. The County Commissioners must also set forth its reasons for the transfer; and the action must be recorded in the official minutes of the meeting.

d. Statutory regulations require budget control to be exercised at the function level within the funds.

e. The following funds were augmented during the year.

<u>General Fund</u>	<u>Special Revenue Fund</u>	<u>Capital Projects Fund</u>	<u>Enterprise Funds</u>
General Fund	Regional Streets and Highways Public Transit Airport Emergency 911 Agricultural Extension Juvenile Probation Building Fund Medical and General Indigent Dedicated County Medical Indigent Health Clinics Education Endowment PETT Health PETT Emergency Assessor Technology Smoky Valley Television District Gabbs General Fund Manhattan Town General	Special Projects Special Ad Valorem Capital Projects County Capital Projects Endowment Capital Projects	Solid Waste

f. Generally, budgets for all funds are adopted in accordance with generally accepted accounting principles. Budgeted amounts reflected in the accompanying financial statements recognize amendments made during the year.

g. All appropriations lapse at the end of the fiscal year.

- A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**
- 8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance**
- a. Cash and Cash Equivalents**

The County's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments with original maturities of three months or less from the date of acquisition.

Cash includes cash deposited in interest-bearing accounts at banks and cash in the custody of fiscal agents of the County.

- b. Investments**

Investments are stated at fair value on the balance sheet. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale. Changes in the fair value of County investments are part of investment income which is included in revenue from local sources on the Statement of Activities and the Statement of Revenues, Expenditures, and Changes in Fund Balances of governmental funds. (**See Note D1**)

Nevada Revised Statutes authorize the County to invest in:

1. Obligations of the U.S. Treasury and U.S. agencies in which the maturity dates do not extend more than 10 years from the date of purchase.
2. Negotiable certificates of deposit issued by commercial banks or insured savings and loan associations.
3. Nonnegotiable certificates of deposit issued by insured commercial banks, insured credit unions or insured savings and loans collateralized for amounts in excess of depository insurance.
4. Certain securities issued by local governments within Nevada.
5. Eligible bankers' acceptances that do not exceed 180 days maturity and do not exceed 20 percent of the investment portfolio.
6. Commercial paper with a rating of A-1 or P-1 that does not exceed 270 days maturity and does not exceed 20 percent of the portfolio.
7. The State of Nevada's Local Government Investment Pool.
8. Repurchase agreements that are collateralized at 102 percent of the repurchase price and do not exceed 90 days maturity. Securities used for collateral must meet the criteria listed above.
9. Money market mutual funds which are rated as "AAA" or its equivalent and invest only in securities issued by the Federal Government, U.S. agencies; master notes, bank notes or other short-term commercial paper rated A-1 or P-1 ; or repurchase agreements fully collateralized by such securities.

- A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**
- 8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)**
- c. Property Tax Receivables**

Taxes on real property are levied in July of each year and are due on the third Monday in July. They can be paid in quarterly installments in August, October, January, and March. In the event of nonpayment, the County Treasurer is authorized to hold the property for two years, subject to redemption upon payment of taxes, penalties, and costs, together with interest at the rate of 10 percent per year from the date the taxes were due until paid. If delinquent taxes are not paid within the two year redemption period, the County Treasurer obtains a deed to the property free of all encumbrances. Upon receipt of a deed, the County Treasurer may sell the property to satisfy the tax lien.

Article X, Section 2, of the Constitution of the State of Nevada limits the total taxes levied by all overlapping governmental units within the boundaries of any County (i.e., the County, the County School District, the State, and any other City, Town, or special District) to an amount not to exceed \$5 per \$100 of assessed valuation of the property being taxed.

The Nevada Legislature enacted provisions whereby the combined overlapping tax rate was limited to \$3.64 per \$100 of assessed valuation.

- d. Net Proceeds Tax**

Taxes for the net proceeds of mines are paid on an annual and quarterly basis. Payments for net proceeds received on estimated business from January 1, 2016, through December 31, 2016, are reflected in the financial statements. In addition, the financial statements reflect quarterly payments related to actual production in excess of the original projections for the period of January 1, 2015, through December 31, 2015. Additional amounts due, based on actual business for the period ending December 31, 2016, are determined subsequent to December 31, 2016. Credits for overpayments of estimated tax received for the production year ending December 31, 2016, are applied to future tax payments in accordance with NRS 362.130. The impact on the County of future additional amounts due or future credits is not determinable at June 30, 2016, and is not reflected in the financial statement. (See Note D2)

- e. Inventories and Prepaid Items**

Inventories are valued at cost using the first-in/first-out (FIFO) method. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

- f. Restricted Assets**

Certain cash assets of the Enterprise Funds are from revenue for specific use by the Enterprise Funds and are classified as restricted assets because their use is restricted by agreement. (See Note D7)

- g. Capital Assets**

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of \$3,000 or more and an estimated useful life in excess of one year.

If purchased or constructed, capital assets are recorded at historical cost or estimated historical cost and updated for additions and retirements during the year. Donated capital assets are valued at their estimated value as of the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

- g. Capital Assets (Continued)**

The County is required to report and depreciate new infrastructure assets. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc. Neither their historical cost nor related depreciation has historically been reported in the financial statements. The County is required to capitalize and report its major general infrastructure assets acquired in fiscal years ending after June 30, 1980. In addition, infrastructure assets acquired before June 30, 1980, that received significant reconstruction must be capitalized.

Land and construction in progress are not depreciated. The other property, plant, and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

<u>Capital Assets</u>	<u>Years</u>
Various Other Equipment	5-20
Vehicles	8
Buildings and Improvements	25-50
Infrastructure	25-50

- h. Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows include the County's pension related contributions subsequent to the measurement date but before the end of the fiscal year and changes in proportion of the District's contributions to the District's proportionate contributions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has only one type of item, which arises only under a modified accrual basis of accounting, which qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source, property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available.

Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The difference between projected and actual experience and investment earnings are related to the deferred inflows of pensions and the calculation of net pension liability reported on the statement of net position.

- i. Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees Retirement System of Nevada (PERS) and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

- A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**
- 8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)**
- j. Compensated Absences**

Vested or accumulated vacation and sick leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide financial statements. No expenditure is reported for these amounts in the fund financial statements. Vacation leave and sick leave included in accrued liabilities and recorded as expenditures in governmental fund types is the amount normally liquidated from "available spendable resources."

In proprietary funds, compensated absences are recorded when the liabilities are incurred. In governmental funds, the current portion is recorded as a payroll expenditure. The estimated long-term liability for compensated absences is accounted for in the government-wide financial statements.

- k. Accrued Salaries and Benefits**

County salaries earned but not paid by June 30, 2016, have been accrued as liabilities and shown as expenditures for the year ending June 30, 2016.

- l. Interfund Activity**

During the course of operations, the County may have activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, balances between the funds included in the governmental activities are eliminated. Similarly, balances between the funds included in business-type activities (i.e. enterprise funds) are eliminated.

Certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported as operating transfers in or out. While reported in fund financial statements, transfers between the funds included in governmental activities are eliminated in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated as transfers in the business-type activities column.

- m. Long-term Obligations**

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed in the period incurred. Deferred losses related to the refunding of debt are reported as a deferred charge component of bonds payable and are amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

- A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**
- 8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)**
- n. Governmental Fund Balances:**

In the governmental fund financial statements, fund balances are classified as follows:

- (i) **Nonspendable** – Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact, such as inventories and prepaids.
- (ii) **Restricted** – Amounts that can be spent only for a specific purpose because of the state or federal laws, or externally imposed conditions by grantors or creditors.
- (iii) **Committed** – These amounts can only be used for specific purposes as set forth by the County Commissioners. The Commissioners must take formal action (vote approval by the majority), in order to establish an ending fund balance commitment for any specific purpose. Formal Commission action is also required to modify or rescind an established commitment. To be reported as committed, amounts cannot be used for any other purpose unless the Commission takes the same highest level action to remove or change the constraint.
- (iv) **Assigned** – Assignments are neither restrictions nor commitments and represent the County's intent to use funds for a specific purpose. These assignments, however, are not legally binding and are meant to reflect intended future use of the County's ending fund balance. Intent can be expressed by the County Commissioners or by the County Comptroller.
- (v) **Unassigned** – All amounts not included in other spendable classifications.

o. Fund Balance Flow Assumptions

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

p. Net Position Policies

In the government-wide statements, net position on the Statement of Net Position includes the following:

(i) Invested in Capital Assets, Net of Related Debt

This is the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction, or improvement of those assets.

(ii) Restricted Assets

This is the component of net position that reports the constraints placed on the use of assets by either external parties and/or enabling legislation.

(iii) Unrestricted

This is the component of net position that is the difference between the assets and liabilities not reported in Invested in Capital Assets, Net of Related Debt and Restricted Assets.

- A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**
- 8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)**
- q. Net Position Flow Assumptions**

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County’s policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

- r. Comparative Data/Reclassifications**

Comparative total data for the prior year has been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the County’s financial position and operations. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year’s presentation.

- s. Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

- 1. Explanation of certain differences between the governmental funds Balance Sheet and the government-wide Statement of Net Position**

The governmental fund balance sheet includes a reconciliation between fund balances - total governmental funds and net position - governmental activities as reported in the government-wide statement of net position. One element of the reconciliation explains that “certain liabilities (such as bonds payable and capital lease payable) are not reported in the Governmental funds financial statements because they are not due and payable, but they are presented as liabilities in the statement of net position.” The details of this difference are as follows:

Bond payable	\$(21,830,000)
Capital lease payable	(564,053)
Less: deferred charge on bond discounts (net of amortization)	2,403
Interest payable	(344,126)
OPEB obligation	(24,180,248)
Compensated absences	<u>(3,248,486)</u>
Net adjustment to reduce fund balance - total governmental funds to arrive at net position - governmental activities	<u>\$(50,164,510)</u>

B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

2. Explanation of certain differences between the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the government-wide Statement of Activities

The governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net position of governmental activities as reported in the government-wide Statement of Activities. One element of that reconciliation explains that "Capital outlays to purchase or build capital assets are reported in Governmental Funds financial statements as expenditures. However, for governmental activities those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities." The details of this difference are as follows:

Capital outlay	\$ 4,671,461
Retirements	(350,115)
Depreciation expense	<u>(4,696,759)</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	<u>\$ (375,413)</u>

Another element of that reconciliation states that, "The issuance of long-term debt (i.e., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on Net Position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and other similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items." The details of this difference are as follows:

General obligation debt principal payments	\$ 905,521
--	------------

Another element of that reconciliation states that "Generally expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred." The details of this difference are as follows:

Accrued interest	\$ (344,126)
Amortization of bond premium	17,253
OPEB obligation	(3,212,861)
Compensated absences	<u>544,490</u>
Net adjustment to increase net change in fund balances - governmental funds to arrive at change in net position of governmental activities	<u>\$ (2,995,244)</u>

C. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

1. Compliance and Accountability

The County is required to report expenditures that exceeded budgeted appropriations at the function level for the General Fund, Special Revenue Funds, and Capital Project Funds. Enterprise funds may not exceed budget appropriations at the fund level. For the year ending June 30, 2016, the following functions exceeded budget appropriations:

Fund Functions in the Special Revenue Funds:

Public Safety Sales Tax Sheriff (10234)	\$ 861,654
---	------------

Funds in the un-incorporated towns:

Gabbs Town – Water Utility Enterprise Fund (23502)	\$ 15,921
--	-----------

Nye County adopted ordinance 443 on October 28, 2013, implementing the Nye County Sales and Use Tax Act of 2007 (the Act), increasing sales and use tax by one-half of one percent. The tax is to be used for public safety. The tax became effective April 1, 2014. Questions concerning the administration of the tax were posed to the Nevada Attorney General's office by the Nye County District Attorney. The opinion from the Attorney General's office dated November 12, 2015, caused changes in how the County administers the tax. Special Revenue funds for each town within Nye County were to be used to account for the tax. The tax revenue and expenditures were not to be accounted for within a single County fund. The County Commission approved the expenditures for the Public Safety Sales Tax within the Public Safety Sales Tax Distribution Fund (Fund 10233). Budget adjustments were not made during the year to move the authorized expenditures from the Public Safety Sales Tax Distribution Fund to the Public Safety Sales Tax Sheriff Special Revenue Fund (fund 10234), causing the expenditures to exceed appropriations in the funds.

Nevada Administrative Code 354.481 indicates that expenses charged to an enterprise in excess of the original budget appropriation are allowable and are not a violation if the expenses do not cause a deficit in the equity balance of the fund; and the budget is adjusted in a manner provided by law. The expenses of the Gabbs Town Water Utility Enterprise Fund did not cause a deficit in the equity balance of the fund. However, a report of augmentation of the budget of the fund was not presented to the Commission and included in the County's quarterly report filed with the Department of Taxation (NRS 354.598005(4)). The violation is primarily due to depreciation expense.

2. Deficit Fund Balance/Net Position

The following funds had a deficit fund balance/net position at year-end:

Pahrump Town Ambulance Fund	\$1,684,769
-----------------------------	-------------

The deficit net position of the Pahrump Ambulance Fund is due to the fund's proportionate share of the net pension liability of the Public Employees' Retirement System of the State of Nevada of \$3,512,681. See Note D-15 of the financial statement.

3. Public Safety Sales Tax

The County adopted ordinance 443 on October 28, 2013, implementing the Nye County Sales and Use Tax Act of 2007, increasing sales and use tax by one-half of one percent. The tax is to be used for public safety. The tax became effective April 1, 2014.

The approval process for expenditures of the public safety sales tax requires the governing body of each town within the county to approve expenditures. Expenditures of the Public Safety Sales Tax Sheriff Special Revenue Fund were incurred during the year ended June 30, 2016. The governing body of certain towns did not approve the spending plans. Therefore, expenditures may not have been in compliance with the provisions of the act.

Expenditures of the tax cannot replace existing funding for sheriff and fire employee compensation and capital outlay. Expenditures may only be used to supplement existing spending. Expenditures for the year in certain towns may not have been in compliance with this provision of the act.

C. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (Continued)

4. Budget Stabilization

Restricted Fund Balance

In accordance with NRS 354.6115, the County established an operations stabilization reserve. The reserve may not exceed 10% of prior year general fund expenditures. The balance may only be used if anticipated revenue in the general fund falls short or to mitigate the effects of a natural disaster. The fund is inactive and had no assets or fund balance.

Committed Fund Balance

The County Commission adopted a resolution to commit \$5,800,000 of the general fund for working capital needs (cash flow). The balance is not to be appropriated for expenditure in the annual budget.

D. DETAILED NOTES ON ALL FUNDS

1. Pooled Cash and Investments

The County maintains a cash and investment pool that is available for use by all funds under the custody of the County Treasurer. At June 30, 2016, this pool is displayed in the statement of net position and major and other governmental funds on the governmental funds balance sheet as "Pooled Cash and Investments."

A reconciliation of cash and investments as shown in the Statement of Net Position is as follows:

Cash with officers	\$ 1,254,934
Carrying amount of deposits	3,545,630
Pooled investments	86,024,347
State Treasurer Investment pool	<u>753,067</u>
Cash and cash equivalents	<u>\$ 91,577,978</u>

A reconciliation of cash and investments as for the County is as follows:

Statement of Net Position	\$ 60,399,389
Statement of Net Position restricted	7,882,707
Private purpose trust fund	26,244
Agency funds	<u>23,269,638</u>
Pooled cash and investments	<u>\$ 91,577,978</u>

Except for financial reporting purposes, the cash balances of \$23,269,638 in the Agency Funds are not normally considered part of the County's pooled cash and investments. These amounts represent cash held in an agency capacity by the County and cannot be used in the County's normal operations.

The cash and investment pool is available for use by all funds of the County. Cash and investments under the custody of the County Treasurer are invested as a pool. The County Treasurer may invest the money of the investment pool in investments which have been authorized as investments by Nevada Revised Statutes. (See Note A8b)

Investment gain or loss is apportioned to the funds within the pool monthly based on the average balance invested for the month.

Cash and investment are subject to the following risks:

Interest Rate Risk: Interest rate risk is the risk of possible reduction in the value of a security, especially a bond, resulting from the rise in interest rates. Nevada Revised Statutes limits bankers' acceptances to 180 days of maturities, repurchase agreements to 90 days, U.S. Treasuries and Agencies to less than 10 years, and commercial paper to 270 days maturity. The approximate weighted average maturity of investments in the Nye County Treasurer's investment pool was 2.52 years.

Custodial Credit Risk: Custodial credit risk is the risk that in the event of a bank or brokerage failure, the County's deposits may not be returned. The County's bank deposits are generally covered by FDIC insurance and are collateralized by the Office of the State Treasurer/Nevada Collateral Pool. At year-end, the County's carrying amount of deposits was \$3,545,630 and the bank balance was \$4,482,681. Of the bank balance, \$276,244 was covered by federal depository insurance. Of the remaining balance, \$4,206,437 was collateralized with securities held by the Nevada Pooled Collateral Program.

Concentrations of Credit Risk: Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. Investments with a single issuer within the Nye County Treasurer cash and investment pool that represent five percent or more of total investments as of June 30, 2016, are as follows:

Federal Home Loan Banks (FHLB)	6.11%
Federal Home Loan Mortgage Corporation (FHLMC)	10.97%
Federal National Mortgage Association (FNMA)	10.69%

D. DETAILED NOTES ON ALL FUNDS (Continued)

1. Pooled Cash and Investments (Continued)

The County implemented GASB Statement No. 72, Fair Value Measurement and Application, in 2016 to categorize its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The County has the following recurring fair value measurements as of June 30, 2016:

Investment Type	Fair Value	Investment Maturities (in Years)				
		Level 1	Level 2	Level 3	N/A

Pahrump Town Public Safety Sales Tax Fire		<u>197,026</u>
		<u>\$ 425,630</u>
Gabbs Utility Water Fund	Gabbs Utility Sewer Fund	<u>\$ 37,897</u>

The payable to the County Owned Building Fund is due to grant revenues receivable for expenditures incurred in advance of reimbursement to the Grants Fund. The Grant Fund amount are expected to be paid with current resources.

The payables from the Public Safety Sales Tax Distribution Fund are due to intergovernmental revenue receivables which are distributed to Towns.

The payable to the Gabbs Utility Water Fund was made to cover negative cash balances in the Gabbs Utility Sewer fund at year-end. The amount is expected to be paid with current resources.

12. Risk Management

Property, Casualty, Crime, and Machinery Insurance

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County joined together with other local governments throughout the State of Nevada to create a pool under the Nevada Interlocal Cooperation Act. The Nevada Public Agency Insurance Pool (NPAIP) is a public entity risk pool currently operating as a common risk management and insurance program for members. The County pays an annual premium and specific deductibles, as necessary, to NPAIP for its general insurance coverage. NPAIP is considered a self-sustaining risk pool that will provide liability coverage for its members up to \$10,000,000 per event and a \$10,000,000 annual aggregate per member. Property, crime, and equipment breakdown coverage is provided to its members up to \$300,000,000 per loss with various sub-limits established for earthquake, flood, equipment breakdown, and money and securities. As a participatory member, the maintenance deductible is \$50,000 for each insured event, except for the Nye County Water District which is \$500.

The County is self-insured for unemployment claims. Payments are made from the general fund to cover claims.

The County participates in the Public Agency Compensation Trust (PACT). Premiums paid to PACT cover workers' compensation claims against the County. Premiums are based on a percentage of wages paid.

The County carries commercial insurance for all other risks of loss including employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

13. Contingent Liabilities

Grants. Amounts received or receivable from grantor agencies are subject to audit and adjustment by those agencies, principally the Federal Government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

Litigation. The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the County that resolution of these matters will not have a material adverse effect on the financial condition of the County.

Landfill Closure and Post-Closure Costs. State and federal laws and regulations require the County to place a final cover on its landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at the sites for thirty years after closure. The closure and post-closure care costs will be paid only near or after the date that the landfills stop accepting waste.

As of June 30, 2016, the estimated liability to date for closure and post-closure costs is \$1,710,510. This represents the cumulative amount reported to date based on percent use of the estimated liability of \$2,901,931 as the remaining capacity is used. Actual costs may be higher due to inflation, changes in technology, or changes in regulations. The County operates several landfills with estimated remaining life of 17 to 26 years.

The County has assessed a \$12 fee for each parcel of land to be used for closure and post-closure costs and a \$5 fee for opening new landfills. As of June 30, 2016, \$7,542,101 has been restricted for future closure, post-closure, and opening landfill costs in the Solid Waste Fund. The County entered into a trust agreement with a trustee bank in which the county placed funds for future closure and post-closure costs for county landfills in the amount of \$2,685,579.

14. Defined Benefit Pension Plan

Plan Description. All half time and greater County employees are provided pension benefits through the Public Employees Retirement System of the State of Nevada (PERS), a cost sharing multiple-employer, defined benefit plan administered by the Public Employees Retirement System of the State of Nevada. PERS provides retirement benefits, disability benefits, and death benefits, including annual cost of living adjustments, to plan members and their beneficiaries. NRS Chapter 286 establishes the benefit provisions provided to the participants of PERS. These benefit provisions may only be amended through legislation. The Public Employees Retirement System of the State of Nevada issues a publicly available financial report that includes financial statements and required supplementary information for PERS that can be obtained at www.nvpers.org under Quick Links — Publications.

Benefits Provided. Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months. Vested members are entitled to a life-time monthly retirement benefit equal to the service time multiplier (STM) percentages listed below times the member's years of service to a maximum of 30 years. The schedule of Eligibility for Monthly Unreduced Retirement Benefits for regular members and police/fire members are as follows:

Years of Service	Eligibility for Regular Members:

* Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as Police/Fire accredited service.

Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death. Post-retirement increases are provided by authority of NRS 286.575 - .579.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

Contributions: Benefits for plan members are funded under the employer pay contribution plan. The County is required to contribute all amounts due under the plan. PERS receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450. The County's required contribution rates for the year ending June 30, 2016 were 40.50% for police and fire members; 28.00% for regular members; and 14.00% for employer/employee match. The County has fully funded the amounts due for the year ending June 30, 2016 of \$7,045,223.

The actuary funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contribution requirement as a percentage of salary.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the County reported a liability of \$52,759,679 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's allocation percentage of the net pension liability was based on the total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their combined employer and member contributions relative to the total combined employer and member contributions for all employers for the period ended June 30, 2015. At June 30, 2015, the County's proportion was 0.48847 percent.

14. Defined Benefit Pension Plan (Continued)

For the year ended June 30, 2016, the County recognized pension expense of \$5,501,535. At June 30, 2016, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual results	\$ 0	\$ 3,967,910
Net difference between projected and actual earnings on pension plan investments	0	2,857,432
Changes in proportion and differences between County contributions and proportionate share of contributions	793,740	2,910,316
County Contributions subsequent to measurement date	<u>7,045,223</u>	<u>0</u>
Total	<u>\$ 7,838,963</u>	<u>\$ 9,735,658</u>

\$7,045,223 was reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2017	\$ 2,508,329
2018	2,508,329
2019	2,508,329
2020	(154,619)
2020	1,024,511
2021	<u>547,039</u>
	<u>\$ 8,941,918</u>

Actuarial Assumptions: The System's net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	3.50%
Payroll Growth	5.00%, including inflation
Investment Rate of Return	8.00%
Productivity pay increase	0.75%
Projected Salary increases	Regular: 4.60% to 9.75%, depending on service Police/Fire: 5.25% to 14.5%, depending on service Rates include inflation and productivity increases
Consumer Price Index	3.50%

Mortality rates were based on the RP-2000 Combined Healthy Table for Males and Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

Actuarial assumptions used in the June 30, 2015, valuation were based on the results of the experience review completed in 2013. The System's policies which determine the investment portfolio target asset allocation are established by the Public Employees' Retirement Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System.

The following was the Board adopted policy target asset allocation as of June 30, 2015:

Asset Class	Target Allocation	Long-Term Geometric Expected Real Rate of Return*
Domestic Equity	42%	5.50%
International Equity	18%	5.75%
Domestic Fixed Income	30%	0.25%
Private Markets	10%	6.80%

*As of June 30, 2015, PERS' long-term inflation assumption was 3.5%

Discount Rate. The discount rate used to measure the total pension liability was 8.00% as of June 30, 2015. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the pension plan's fiduciary net position at June 30, 2015, was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2015.

Sensitivity of the County's proportionate share of the net pension liability to change in the discount rate. The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 8.0 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percent higher or lower than the current rate.

	1.0% Decrease (7.0%)	Discount Rate (8.0%)	1.0% Increase (9.0%)
County's proportionate share of the net pension liability	\$ 69,840,904	\$ 45,833,660	\$ 25,869,461

Pension Plan Fiduciary Net Position: Detailed information about the pension plan's fiduciary net position is available in the PERS Comprehensive Annual Financial Report, available on the PERS website.

Pension contributions payable. The County's accrued contributions payable at June 30, 2016, were \$799,150.

15. Post-Employment Healthcare Plan

Plan Descriptions: The County administers a single-employer defined benefit healthcare plan, Nye County Employee Health Benefits Plan (NCEHBP). Additionally, the County contributes to an agent multiple-employer defined benefit post-employment healthcare plan, Public Employees' Benefits Plan (PEBP). Each plan provides medical, vision, dental, and life insurance benefits to eligible retired County employees and beneficiaries.

Public Employees' Benefits Plan (PEBP).

The County subsidizes eligible retirees' contributions to the Public Employees' Benefits Plan (PEBP), an agent multiple-employer defined benefit post-employment healthcare plan administered by the State of Nevada. NRS 287.041 assigns the authority to establish and amend benefit provisions to the PEBP ten-member board of trustees. County employees who meet the eligibility requirement for retirement within the Nevada Public Employees' Retirement System have the option upon retirement to enroll in coverage under the PEBP and the subsidy provided by the County is determined by their number of years of service. Changes in state law have significantly impacted retirees' eligibility to enroll in PEBP. As of September 1, 2008, the plan will no longer be available to those actively employed past that date. The PEBP issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Benefits Program, 901 S. Stewart Street, Suite 1001, Carson City, NV, 89701, by calling (775) 684-7000, or by accessing the website at www.pebp.state.nv.us/informed/financial.htm.

15. Post-Employment Healthcare Plan (Continued)

Nye County Employee Health Benefits Plan (NCEHBP).

Benefit provisions for the NCEHBP are established pursuant to NRS 287.023 and amended through negotiations between the County and the respective associations. The plan provides healthcare insurance for eligible retirees and their beneficiaries through the County's group health insurance plan, which covers both active and retired members. Under NRS 287.023, eligible retirees are able to participate in the plan with blended rates, thereby benefitting from an implicit subsidy. The County contributes up to 100% of the premium costs. Retired employees pay the balance of the monthly premium. As of July 1, 2014, 188 retirees were using this plan. NCEHBP does not issue a publicly available financial report.

Pahrump Town Employee Health Benefits Plan

Plan Description: The Town administers a single-employer defined benefit healthcare plan. The plan provides medical, dental, prescription, and life insurance benefits to eligible retired Town employees. Benefit provisions for the plan are established pursuant to NRS 287.023 and amended through negotiations between the Town and its employees. NRS 288.150 assigns the authority to establish benefit provisions to the County Commissioners. The plan provides healthcare insurance for eligible retirees through the Town's group health insurance plan, which covers both active and retired members. Under NRS 287.023, eligible retirees are able to participate in the plan with blended rates, thereby benefitting from an implicit subsidy. The plan does not issue a publicly available financial report.

Funding Policies:

Public Employees' Benefits Plan (PEBP): NRS 287.046 establishes the subsidies to be contributed toward the premium costs of the eligible retired district employees. Plan members receiving benefits have their monthly contributions deducted from their pension checks based on the health plan chosen by the retiree as reduced by the amount of the subsidy. Effective July, 2015, the subsidy provided to pre-Medicare retirees now varies based on the type of plan selected (PPO or HMO) and by the level of coverage taken (e.g., single, two party, family, etc.). The chart below shows our understanding of monthly amounts currently payable for those with 5 years and with 20 years of PERS service.

Coverage Level 5 Years of Service	PPO	CDHP	HMO
Retiree Only	\$293.35	\$ 61.90	
Retiree + Spouse	670.10	278.38	
Retiree + Child(ren)	620.47	170.60	
Retiree + Family	996.85	387.07	
20 Years of Service			
Retiree Only	\$772.11	540.66	
Retiree + Spouse	1,148.86	757.14	
Retiree + Child(ren)	1,099.23	649.36	
Retiree + Family	1,475.61	865.83	

The contribution requirements of plan members and the County are established and amended by the PEBP board of trustees. As a participating employer, the County is billed for the subsidy on a monthly basis and is legally required under NRS 287.023 to provide for it.

For fiscal year 2016, the County contributed \$43,156 to the plan for current premiums. The County did not prefund future benefits.

15. Post-Employment Healthcare Plan (Continued)

Nye County Employee Health Benefits Plan (NCEHBP).

Funding Policy Contribution requirements of the plan members and the County are established and may be amended through negotiations between the County and employees. The County pays 100% of the costs of current-year premiums for eligible retired plan members. For fiscal year 2016, the County contributed \$1,425,192 to the plan. Employees hired before August 1, 2000, who vest in the State of Nevada Public Employees' Retirement System (PERS) by or through their employment with the County, and who have worked not less than eight (8) continuous years for the County immediately preceding retirement, and who, when they leave County employment collect PERS retirement, will have the same percentage of their post-retirement health insurance premiums paid by the County as the County pays for its employees, of which the percentage may from time to time change. Employees hired on or after August 1, 2000, who vest in PERS by or through their employment with the County, and who have worked not less than twenty (20) continuous years for the County, and who, when they leave County employment collect PERS retirement, will have fifty percent (50%) of their post-retirement health insurance premiums paid by the County. Employees who retire from the County who do not meet these qualifications may choose to participate in the plan and would be required to fully pay their costs of health insurance coverage.

Pahrump Town Employee Health Benefits Plan

Funding Policy: Contribution requirements of the plan members and the Town are established and may be amended through negotiations between the Town and employees. The Town pays 100% of the costs of current-year premiums for eligible retired plan members. For fiscal year 2016, the Town contributed \$35,499 to the plan. The Town provides paid health insurance coverage through its group plan for non-bargaining unit retirees, who were hired by the Town prior to July, 1997 and have ten (10) or more years of service to the Town. Dependent coverage is not available to retirees. If the employer's insurance plan does not offer out-of-area coverage, the Town will pay the equivalent of its current employee premium for an out-of-area plan for eligible retirees who relocate.

Annual OPEB Cost and Net OPEB Obligation The County's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For fiscal year 2016, the County's annual OPEB cost (expense) of \$4,576,336 for the PEBP was equal to the ARC. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2016 and the two preceding years are as follows:

Funded Status and Funding Progress The County's most recent actuarial valuation was as of July 1, 2014, and as of the end of the fiscal year, the County has not prefunded any portion of the plan. The actuarial accrued liability (AAL) for benefits was \$76,107,197 and having not funded the obligation the County currently has no associated assets to offset this liability. Because of this, the unfunded actuarial accrued liability (UAAL) is equal to the AAL. The covered payroll (annual payroll of active employees covered by the plan) was \$24,916,412 and the ratio of the UAAL to the covered payroll was 305.45%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the basic financial statements, presents information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2014, actuarial valuation, the entry age normal cost method was used. The actuarial assumptions included a 4 percent investment rate of return which is the target rate of return for the Nevada Public Employees' Retirement System. This rate is used since state law allows trusts to be created within the retirement system for investing assets associated with other post-employment benefits. If the County ultimately chooses to fund the plan they would fund it through a trust with the assets invested by PERS. An annual healthcare cost trend rate of 4.8 percent is used initially, reduced by decrements to an ultimate rate of 3.83 percent after seventy years. A standard 2.5 percent inflation rate was used throughout.

Changes in state law have significantly impacted the assumptions in the current year. As of September 1, 2008, the PEBP plan will no longer be available to those actively employed past this date.

The UAAL is being amortized as a level percentage of projected payroll on a closed 30 year basis. The remaining amortization period at June 30, 2016, is 23 years.

16. Restatement of Prior Year Financial Statement

The County Law Library has been reported as part of the general fund in prior years. The Law Library fund meets the definition of special revenue as defined by Governmental Accounting Standards Board. The financial statements have been restated to report the Law Library as a separate special revenue fund. The fund balance of the General Fund and the Law Library Special Revenue Fund has been restated to reflect this change. The fund balance of the General Fund has been decreased to reflect the Law Library portion of the fund. The beginning fund balance of the General Fund has been decreased by \$47,910. **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Honorable Board of County Commissioners
Nye County, Nevada
Tonopah, Nevada

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Nye County, Nevada (the County), as of and for the year ended June 30, 2016, and the related notes to the basic financial statements, which collectively comprise the County's basic financial statements, and have issued my report thereon dated November 29, 2016.

Internal Control over Financial Reporting

In planning and performing my audit of the financial statements, I considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, I do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

AUDITOR'S COMMENTS

Honorable Board of County Commissioners
Nye County, Nevada
Tonopah, Nevada

In connection with my audit of the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Nye County, Nevada (the County) as of and for the year ended June 30, 2016, and the related notes to the basic financial statements, nothing came to my attention that caused me to believe that the County failed to comply with the specific requirements of Nevada Revised Statutes referenced below insofar as they relate to accounting matters except as noted below. However, my audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had I performed additional procedures, other matters may have come to my attention regarding the County's noncompliance with the requirements of Nevada Revised Statutes noted below, insofar as they relate to accounting matters.

CURRENT YEAR RECOMMENDATIONS

There were no current year comments.

PRIOR YEAR RECOMMENDATIONS

Timely bank account and investment reconciliation to the general ledger

Reconciliations were completed timely beginning January, 2016.

Revenue Apportionment

Procedures were completed beginning January, 2016.

CURRENT YEAR STATUTE COMPLIANCE

Interfund Loans

An interfund loan/transfer was made to the General Fund from the PITT Emergency Fund in July of 2016. This interfund loan/transfer was not approved in a County Commission meeting. The County Commission approved an operating transfer from the PITT Emergency fund in October, 2016, effectively approving the interfund loan/transfer.

Deficit Fund Balance/Net Position

The following funds had a deficit equity balance at year end.

Pahrump Town Ambulance Fund	\$ 1,684,769
-----------------------------	--------------

The deficit net position of the Pahrump Ambulance Fund is due to the implementation of new accounting guidance, GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, which requires the County to record its proportionate share of the net pension liability of the Public Employees' Retirement System of the State of Nevada.

Expenditures in Excess of Appropriations

Chapter 354.626 of the Nevada Revised Statutes provides that no governing body or officer or department thereof shall expend or contract to expend any money or incur any liability in excess of the amounts appropriated for that function or fund for any fiscal year. The following funds/functions were in excess of budget appropriations.

Fund Functions in the Special Revenue Funds:

Public Safety Sales Tax Sheriff (10234)	\$ 861,654
---	------------

Funds in the un-incorporated towns:

Gabbs Town – Water Utility Enterprise Fund (23502)	\$ 15,921
--	-----------

Nye County adopted ordinance 443 on October 28, 2013, implementing the Nye County Sales and Use Tax Act of 2007 (the Act), increasing sales and use tax by one-half of one percent. The tax is to be used for public safety. The tax became effective April 1, 2014. Questions concerning the administration of the tax were posed to the Nevada Attorney General's office by the Nye County District Attorney. The opinion from the Attorney General's office dated November 12, 2015, caused changes in how the County administers the tax. Special Revenue funds for each town within Nye County were to be used to account for the tax. The tax revenue and expenditures were not to be accounted for within a single County fund. The County Commission approved the expenditures for the Public Safety Sales Tax within the Public Safety Sales Tax Distribution Fund (Fund 10233). Budget adjustments were not made during the year to move the authorized expenditures from the Public Safety Sales Tax Distribution Fund to the Public Safety Sales Tax Sheriff Special Revenue Fund (fund 10234), causing the expenditures to exceed appropriations in the funds.

The County Commission adopted, on May 17, 2016, the budget for the year ending June 30, 2017, which includes budget expenditure authorization for the Public Safety Sales Tax Sheriff Special Funds.

Nevada Administrative Code 354.481 indicates that expenses charged to an enterprise in excess of the original budget appropriation are allowable and are not a violation if the expenses do not cause a deficit in the equity balance of the fund and the budget is adjusted in a manner provided by law. The expenses of the Gabbs Town Water Utility Enterprise Fund did not cause a deficit in the equity balance of the fund. However, a report of augmentation of the budget of the fund was not presented to the Commission and included in the County's quarterly report filed with the Department of Taxation (NRS 354.598005(4)). The violation is primarily due to depreciation expense.

Public Safety Sales Tax Expenditure Compliance

The approval process for expenditures of the public safety sales tax requires the governing body of each town within the County to approve expenditures. Expenditures were incurred during the year ended June 30, 2016. The governing body of certain towns did not approve the spending plans. Therefore, expenditures may not have been in compliance with the provisions of the act.

Expenditures of the tax cannot replace existing funding for sheriff and fire employee compensation and capital outlay. Expenditures may only be used to supplement existing spending. Expenditures for the year in certain towns may not have been in compliance with this provision of the act.

Capital Asset Inventory

Chapter 354.625 of the Nevada Revised Statutes and Chapter 354.750 of the Nevada Administrative Code require the County to designate a capital asset manager and to inventory County equipment at least every two years. Each asset of the County is to be assigned an identifying number and be labeled as belonging to the County. An inventory of equipment was conducted, but due to employee turnover within the Finance Department, an inventory was not completed resulting in identifying numbers not being affixed to each capital asset belonging to the County.

PROGRESS ON PRIOR YEAR STATUTE COMPLIANCE

Expenditures in Excess of Appropriations

Prior year findings included ten funds/functions that had expenditures in excess of appropriations. As noted above, two funds/functions report expenditures in excess of appropriations.

Deficit Fund Balance/Net Position

Prior year findings included two funds with deficit fund balance/net position. As noted above, one fund had a deficit equity position. This deficit will continue in future years due to net pension liability.

Timely Deposit of Money Collected by County Officer

Reports were filed timely with the Nye County Treasurer's office beginning January, 2016.

Capital Assets Inventory

An inventory of equipment was conducted, but due to turnover within the Finance Department, the project was not completed resulting in identifying numbers not being affixed to each capital asset belonging to the County. Similar findings were noted in the current year.

Monthly Statement of Cash Balances

The required monthly statements of cash balances beginning January, 2016, were submitted to the board of County Commissioners timely.

Public Safety Sales Tax

Administration

Resolutions creating the required Public Safety Sales Tax funds were approved by the County Commission. Budget authorizations for expenditures were approved as part of the annual budget process for the 2015/2016 year. However, the budget authorizations were approved with all activity budgeted in one fund. The activity is to be accounted for in various unincorporated town funds of the County as well as three County Special Revenue Funds. The County budget approved for the year ending June 20, 2017, includes budgets for the required special revenue funds.

Expenditure Compliance

The governing body of certain towns did not approve the spending plans for the year ending June 30, 2016.

Audit of Apportionments

Audit of the apportionment of investment income began January, 2016.

NEVADA REVISED STATUTE 354.6115 - STABILIZATION FUND

The County created a stabilization fund in accordance with Nevada Revised Statute 354.6115, "Fund to stabilize operations of local government and mitigate effects of natural disaster." The fund is inactive and had no assets or fund balance during the year. Funds may be deposited and accumulated in the fund in future years.

NEVADA REVISED STATUTE 354.5989 – BUSINESS LICENSES

Nevada Revised Statutes 354.624 Sec 4(a) requires a schedule of all fees imposed by the County which are subject to the provisions of NRS 354.5989. The Unincorporated Town of Pahrump, Nevada, charges a business license fee that is subject to NRS 354.5989. During the year ended June 30, 2016, business licenses subject to the limitations of NRS 354.5989 were not raised. The annual business license fees are as follows:
