The law firms of Baron & Budd, P.C. and Levin, Papantonio, Thomas, Mitchell, Rafferty & Proctor, PA, together with their National Consortium Co-Counsel Greene, Ketchum, Farrell, Bailey & Tweel, LLP; McHugh Fuller Law Group, PLLC; Hill, Peterson, Carper, Bee & Dietzler, PLLC; and Powell & Majestro, PLLC, (the "Firms" or the "Legal Team"), submit this response to Nye County, Nevada's Request for Proposals regarding Prescription Opiate Litigation.

The Firms offer heavyweight resources and experience. The firms comprising our Consortium have taken on and defeated Big Tobacco, Asbestos, BP, and DuPont, as well as numerous pharmaceutical and medical device giants, including Bayer, Merck, Johnson & Johnson, Abbvie, Stryker, and Roche.

The opioid litigation is receiving our utmost attention. Attorneys in the Consortium legal team developed the diversion theories at the heart of the current opioid litigation, and currently represent more than 200 governmental entities and sovereign Indian Nations in their litigation against prescription opioid manufacturers and distributors (see **Exhibit 1** for a representative list). This group has investigated and filed more cases against opioid manufacturers and distributors than any other group in the country, and their attorneys occupy five leadership seats in the recently created opioid multidistrict litigation (MDL), including Co-lead Counsel, Co-liaison Counsel, and three positions on the Plaintiffs' Executive Committee.

The Firms have devoted significant manpower and financial resources to carrying out this litigation from beginning to end. We routinely front thousands of attorney hours and millions of dollars in costs in exchange for being compensated via a contingency fee arrangement, under which, if the client does not obtain a recovery, the client does not pay any fees or costs. We propose this same arrangement to Nye County. The firms and attorneys comprising the Legal Team are all appropriately insured against malpractice claims. Proof of insurance will be made available should the contract be awarded.

1. Overview of Legal Issues / Litigation

Provide a brief narrative addressing 1) the advantages/disadvantages of Nye County participating in litigation against Opioid Manufacturers and distributors and 2) the status of litigation already filed by government entities in state and federal courts.

Nye County's best opportunity for obtaining relief through legal action is a lawsuit in federal court. The legal theories arising out of the federal controlled substance act and RICO invoke federal question subject matter jurisdiction and cannot remain in state court. Not only does a federal case afford the strongest causes of action, but federal courts have robust powers, including broad subpoena power, that we can use to the County's advantage.

The opioid-related cases that have been filed across the country on behalf of local governments were recently consolidated in front of a single federal judge—Judge Dan Polster in the Northern District of Ohio—into MDL 2804, *In Re: National Prescription Opiate Litigation*. The MDL process permits the temporary transfer of civil lawsuits to one district court for pretrial consideration and/or consolidation. The purpose of the MDL is to promote efficiency and consistency by reducing the risk of contrary legal opinions and allowing for coordinated discovery. If Nye County’s lawsuit is filed in federal court, which we recommend, it will also become part of this pending MDL.

As stated above, members of our Legal Team developed the diversion and RICO theories at the heart of the current opioid litigation, and currently represent more than 200 governmental entities and sovereign Indian Nations in their litigation against prescription opioid manufacturers and distributors. We have investigated and filed more cases against opioid manufacturers and distributors than any other group in the country, and our attorneys occupy five leadership seats in the Opioid MDL, including Co-lead Counsel; Co-liaison Counsel; and three Plaintiffs’ Executive Committee positions.

Based on our investigation and experience in other litigation against wholesale distributors and manufacturers of prescription opioids, the Firms believe that Nye County may have causes of action based on Nevada’s nuisance statutes; the federal Racketeer Influenced and Corrupt Organizations (RICO) Act and Nevada racketeering statutes; and claims arising under the Nevada Food, Drug, and Cosmetic Act, Nevada consumer-protection law, and Nevada tort law.

Potential Causes of Action

In Nevada, a nuisance action may be brought to abate, *inter alia*, “[a]nything which is injurious to health . . . so as to interfere with the comfortable enjoyment of life.” Nev. Rev. Stat. Ann. § 40.140. The Firms believe that Nye County may pursue a civil action for abatement of public nuisances and recovery of damages caused by the diversion of prescription opioids into illicit channels.

The Firms also believe that Nye County may pursue civil action for racketeering activity prohibited under both the federal Racketeer Influenced and Corrupt Organizations (RICO) Act and Nevada racketeering statutes. The federal RICO Act prohibits “(1) conduct (2) of an enterprise (3) through a pattern (4) of racketeering activity.” *Sedima, S.P.R.L. v. Imrex Co.*, 473 U.S. 479, 496 (1985) (footnote omitted); see 18 U.S.C. § 1962 (prohibiting racketeering activity). Nevada law similarly prohibits engaging in racketeering activity. Nev. Rev. Stat. Ann. § 207.400. The Firms would consider bringing racketeering claims against opioid manufacturers and/or wholesale distributors predicated on mail and/or wire fraud, as well as failure to comply with controlled substances laws.

For over a decade, opioid manufacturers and distributors aggressively sought to bolster their revenue, increase profit, and grow their share of the prescription painkiller market by unlawfully and surreptitiously increasing the volume of opioids they sold and distributed. However, manufacturers and distributors were limited by federal and state requirements to, *inter alia*, maintain effective controls against diversion of the controlled substances that they manufacturer or distribute; design and operate a system to identify suspicious orders of controlled substances, halt such unlawful sales, and report them to the Drug Enforcement Administration (DEA) and the Food and Drug Administration (FDA); and make sales within a limited quota set by the DEA for the overall production of controlled substances like opioids. Finding it impossible to legally achieve their ever-increasing sales ambitions, opioid manufacturers and distributors worked together as an enterprise to systematically and fraudulently engage in unlawful sales of painkillers which, in turn, artificially and illegally increased the annual production quotas throughout the United States for opioids allowed by the DEA. The opioid manufacturers and distributors operated their enterprise by hiding from the public, suppressing, and/or ignoring warnings from third parties, whistleblowers, and governmental entities about the reality of the suspicious orders that the distributors were filling on a daily basis, leading to the diversion of tens of millions of doses of prescriptions opioids into the illicit market and increasing production quotas.

Finally, opioid manufacturers and/or wholesale distributors are potentially liable for several other causes of action, including violations of the Nevada Food, Drug, and Cosmetic Act, Nev. Rev. Stat. Ann. § 585.520 (prohibiting manufacture, sale, and distribution of misbranded or adulterated drugs), Nevada consumer-protection law, *id.* § 598.0915 (prohibiting engaging in deceptive trade practices), strict products liability (design defect and failure to warn), fraud, negligence, fraudulent and negligent misrepresentation, and breach of implied and express warranties.

Damages Assessment and Available Relief

The opioid epidemic has imposed and will continue to impose significant costs upon Nye County, including costs for (1) medical care, additional therapeutic and prescription drug purchases, and other treatments for patients suffering from opioid-related addiction or disease, including overdoses and deaths; (2) counseling and rehabilitation services; (3) treatment of infants born with opioid-related medical conditions; (4) welfare for children whose parents suffer from opioid-related disability or incapacitation; (5) payments for illegally distributed opioids through government payor programs; and (6) law enforcement and public safety relating to the opioid epidemic.

Actual damages for these costs are available under Nevada nuisance law, Nev. Rev. Stat. Ann. § 40.140; federal racketeering law, 18 U.S.C. § 1964(c); state racketeering law, Nev. Rev. Stat. Ann. § 207.470(1); Nevada's deceptive trade practices law, *id.* § 598.0999; and common-law causes of action. Treble damages are also

available under Nevada's deceptive trade practices statutes, *id.*, as well as the federal RICO Act, 18 U.S.C. § 1964(c).

Additionally, defendants are subject to a civil penalty of up to \$5000 for each willful violation of Nevada's deceptive trade practices statutes. Nev. Rev. Stat. Ann. § 598.0999(2). Furthermore, injunctive relief is available under state deceptive trade practices law, *id.* § 598.0979(1), and nuisances "may be enjoined or abated," *id.* § 40.140(1).

Finally, Nye County may obtain punitive or exemplary damages by showing that opioid manufacturers and/or distributors are "guilty of oppression, fraud or malice, express or implied." *Id.* § 42.005.

The effects of the opioid epidemic are widespread throughout Nye County, and we are pursuing a damage model that is expansive and encompasses both retrospective and prospective relief.

Retrospectively, our lawsuit will seek to recover for Nye County the funds the County has already spent addressing the crisis. This will include direct expenditures by the County, such as:

- EMS and other first responders
- Drugs such as Naloxone (Narcan)
- Medical examiner expenses
- Public hospital expenses
- Increased law enforcement expenses
- Increased jailing expenses
- Substance abuse programs (including education, prevention, and treatment)
- Increased expenses due to the Dependency docket associated with child welfare.

In addition to the direct and obvious retroactive expenses, our lawsuit will also seek to recover indirect costs and expenses that are related to the opioid epidemic. We have retained experts to investigate and opine on categories of damages, such as urban or rural blight, that may have been caused by the epidemic. Blight can illustrate itself in many ways, including the loss of the workforce, increased crime and incarceration, increased homelessness, and the closure of businesses. Nye County has suffered and continues to suffer real damages from these factors, including possible loss of tourism dollars and loss of quality of life.

Our lawsuit will also address damages in a prospective manner. We will ask (and then answer) the question: "How much money will it take to put Nye County back into the position that it was in before the opioid crisis began?" While this is an individual lawsuit and Nye County's damages will certainly be distinct from those suffered by other governmental entities in certain respects, we generally envision an abatement fund covering three broad areas.

First, we anticipate funding being spent on education. We must ensure that children understand that the pills in their parents' cupboards are just as dangerous as a heroin needle. Additionally, public awareness campaigns are needed, to help combat the dangerous marketing that, for so many years, has steered the conversation about these addictive drugs.

Second, funding is needed to support law enforcement and jailing so that the community can stay safe while Nye County is in the process of addressing this crisis.

Third, and likely most importantly, to truly have a chance at rehabilitating the community, funding is needed for healthcare and addiction recovery services. This will require extensive resources, both in the form of facilities and employing personnel.

2. Statement of Qualifications

Experience of Firm: Provide a summary statement of the firm's experience with similar types of lawsuits during the past ten (10) years including a list of clients for which the firm has provided these services and the dates such services were provided.

Experience/Qualifications of Assigned Professional(s): Provide a resume for the individual employees who may be assigned to this litigation and designate who would have primary responsibility for this litigation. Also indicate the specific role the proposed individual(s) had in the above referenced lawsuits.

Baron & Budd, P.C.

Baron & Budd, PC is a professional corporation that was founded in 1977 with offices in Dallas and Austin, Texas; Baton Rouge and New Orleans, Louisiana; Los Angeles and San Diego, California; and Washington, D.C. The firm employs more than 60 attorneys and more than 120 support staff, which includes paralegals, legal secretaries, technical support personnel and accounting personnel. For nearly 40 years, Baron & Budd has represented individuals, businesses, and public entities in matters from coast to coast. The firm's experience and capacity in complex litigation are virtually unmatched. Its primary focus is on representing plaintiffs on a contingency fee basis, and its significant areas of litigation include environmental damages cases, occupational and

environmental injury cases, property damage claims, pharmaceutical injury cases, investor protection, consumer protection, class action and qui tam litigation.

Baron & Budd represents hundreds of public entities in various types of litigation and together with the National Consortium Co-Counsel represents over 200 public entities in opioids litigation alone. Please see **Exhibit 1** for a list of the Legal Team's representative clients.

Baron & Budd currently represents the Attorney General of the State of New Mexico in opioids litigation. Baron & Budd also represents the Attorneys General of the States of Hawaii, Mississippi and New Mexico in litigation unrelated to opioids. Additional details regarding these cases are attached as **Exhibit 2**.

Baron & Budd attorneys, together with co-counsel, represented the States of Mississippi, West Virginia, Utah, New Mexico, Maryland, Kentucky, and South Carolina in litigation against GlaxoSmithKline, LLC for the fraudulent marketing of the diabetes drug Avandia. The state causes of action litigated in these 7 cases included state consumer protection and, where applicable, state Medicaid Fraud statutes. These cases settled in 2013 for \$177 million.

The State of New Mexico By and Through the Attorney General for the State of New Mexico, Gary King v GlaxoSmithKline, LLC, formerly SmithKline Beecham Corporation d/b/a GlaxoSmithKline; Case No. D-101-CV-2012-01432, First Judicial District Court for the County of Santa Fe, New Mexico;

State of South Carolina, ex rel. Alan Wilson, in his capacity as Attorney General of the State of South Carolina v. GlaxoSmithKline, LLC, formerly SmithKline Beecham Corporation d/b/a GlaxoSmithKline; Civil Action No.: 2011-CP-42-2174, South Carolina Court of Common Pleas, Seventh Judicial District, County of Spartanburg;

Mark L. Shurtleff, Attorney General of the State of Utah, ex rel. the State of Utah v. GlaxoSmithKline, LLC, formerly SmithKline Beecham Corporation d/b/a GlaxoSmithKline; Civil No. 100423795, Third Judicial District Court of Salt Lake County, West Jordan Department, State of Utah.

These seven separate actions arose from GlaxoSmithKline's ("GSK") deceptive acts in wrongfully and illegally marketing, promoting, and selling the diabetes medication *rosiglitazone maleate*, sold by GSK under the trade names Avandia, Avandamet, and Avandaryl (hereafter referred to as "Avandia"). GSK engaged in an illegal and deceptive marketing program nationwide to promote the use of Avandia as an alleged "wonder drug" in the treatment of diabetes. Through a variety of schemes, including corrupting the medical literature, threatening a preeminent physician, and dishonest promotions, GSK sold Avandia as a "significant advance" in diabetes treatment. GSK affirmatively represented that Avandia was superior to existing drugs, such as metformin and sulfonylureas, at lowering diabetics' blood sugar, a critical goal in diabetes treatment. GSK affirmatively represented that Avandia could reduce diabetics' cardiovascular risks when GSK in fact knew that Avandia posed serious cardiovascular risks, including heart attack and sudden cardiac death.

As a result of GSK's exploitation of the States' Employee Healthcare and Medicaid programs, the States dispensed millions of dollars of State funds in purchasing Avandia. The States also paid and must cover the costs of care for those Employees and Medicaid recipients rendered chronically ill and/or injured by Avandia's undisclosed side effects. Included in the causes of action brought by the States were allegations regarding violations of the states' consumer protection laws, false claims acts, truth in advertising laws, and where applicable, state Medicaid Fraud statutes.

These seven individual civil cases were filed in 2011, 2012 and 2013. Baron & Budd Managing Shareholder, Russell Budd, played a key role in negotiating the settlement of the seven States' claims for \$177 million in 2013. In comparison, the federal/multi-state settlement of 37 States and the District of Columbia resulted in a collective settlement of \$90 million for those 38 entities combined.

Levin Papantonio attorneys were leaders in the landmark case *In re: E. I. du Pont de Nemours and Company C-8 Personal Injury Litigation*, Case No. 2:13-md-02433, United States District Court for the Southern District of Ohio. The lawsuits, first filed in November 2013 and involving C8, alleged DuPont released millions of pounds of the chemical into the Ohio River and into the air from its plant in Parkersburg, West Virginia, causing thousands of persons to suffer injuries, including kidney and testicular cancer, and ulcerative colitis. More than 30 years ago DuPont became aware that C8 was in drinking water in Ohio and West Virginia at dangerous levels yet said nothing to the government or public. In fact, it increased its production, and continued to discharge the chemical in a manner to enter the Ohio River and air. On February 13, 2017, a global settlement in the amount of \$670 million was reached with our team of lawyers and DuPont. The settlement covers all of the C8 cases that were filed in federal court as of that date where the plaintiff suffered from a covered physical injury resulting from C8 being dumped into the Ohio River and into the air from the DuPont plant in Parkersburg, West Virginia. Levin Papantonio represented over 1,000 individual plaintiffs out of the 3,500 in the MDL.

Levin Papantonio's experience in lead counsel roles ranges from areas such as pharmaceutical litigation, environmental, class action, derivative, securities, antitrust litigation to a key role in the landmark tobacco cases brought by the states to recover health care expenditures. Levin Papantonio has held leadership positions in some of the country's most complex multi-district litigations, including the Plaintiffs' Executive Committee *In re Deepwater Horizon (BP) Oil Spill in the Gulf*, MDL 2179 (E.D. LA), helping to bring about the recent \$20.8 billion settlement in that action. Levin Papantonio attorneys also served on the Plaintiff Steering Committee and as co-chair of the Discovery Committee for the Bayer Yaz/Yasmin pharmaceutical litigation, in which Bayer has paid approximately \$2 billion to date.

Levin Papantonio's Securities and Business Litigation Department handles complex and business litigation, with a particular focus on public and consumer protection. The Securities and Business Litigation Department has represented more than two dozen municipalities and quasi-governmental agencies like cities, states, and special-purpose districts. In addition, it has represented more than 3,000 fraud victims across the country in state and federal court and in securities industry arbitration. The Securities and Business Litigation Department routinely manages cases with millions of documents

and dozens of witnesses and has successfully litigated against some of the largest financial institutions in the world.

Levin Papantonio is a nationally recognized litigation firm that has built a reputation on its willingness to litigate to verdict complex disputes against some of the world's largest companies. The firm routinely litigates cases that require thousands of attorney hours and millions in expenses.

Provide a statement concerning your firm's ability to devote sufficient time and resources to this type of litigation in relation to existing or anticipated assignments of the firm.

The members of our Legal Team are all trial law firms who specialize in complex litigation. While all members of our Legal Team have a history of pursuing these types of cases, Baron & Budd and Levin Papantonio are widely considered giants in the world of mass torts and complex litigation and have been leaders in national lawsuits going back to the days of asbestos and tobacco. Additionally, several of our firms—Greene Ketchum, Hill Peterson and Powell & Majestro—are located in Southern West Virginia—the area that is largely viewed as the epicenter of the opioid epidemic—and they have seen the effects of this public health crisis first-hand and are some of the innovators of this litigation.

There should be no doubt our Legal Team possesses the resources to adequately carry out this litigation from beginning to end. Our Legal Team consists of six highly successful national law firms, whose business models consist of fronting thousands of attorney hours and millions of dollars in costs in exchange for being compensated via a contingency fee. The firms included in this Legal Team have taken on and defeated Big Tobacco, Asbestos, BP, and numerous pharmaceutical and medical device giants, such as Bayer, Merck, Johnson & Johnson, Abbvie, Stryker, and Roche. The Firms attorneys have served and continue to serve in leadership roles in some of the nation's most high-profile and complex cases (*see Exhibit 3*). This case is receiving our utmost attention and we have and will continue to devote significant manpower and financial resources in our effort to hold the pharmaceutical industry accountable for the harm caused by their actions and inactions.

The financial resources of our Legal Team are robust. All six Legal Team firms have long histories of success and profitability, and several of our firms have established lines of credit that ensure that we are financially capable of handling even the most complex and costly cases from outset to conclusion. The Firms have already retained a stable of experts to develop the legal, factual, and damages theories, and we will continue to retain additional experts as needed to prove the County's claims.

Our firms collectively have hundreds of attorneys and staff members that we can call on to successfully resolve this litigation. As mentioned herein, the firms in our Legal Team currently represent more than 200 local governments in opioid litigation. To support this effort, we have collectively committed dozens of attorneys dedicated to work full time on the opioid litigation.

4. Disclosure of Potential Conflict of Interest

Provide a statement regarding any potential conflict of interest issues the firm or attorney(s) that may be assigned to this litigation might have or encounter.

The Firms know of no such conflict of interest issues at this time. Should any conflicts of interest present themselves, the Firms will make those conflicts known to Nye County as soon as possible.

5. Nye County Resources

Provide a statement regarding the extent to which Nye County staff resources will be needed to assist in the litigation by providing information, data, documents, etc. Identify what those resources will be along with an explanation as to how the staff time and resources may be reimbursed via the lawsuit.

The most helpful information Nye County could provide would be data on how the opioid crisis has harmed the County and its residents, monetarily and otherwise. These data could include statistics on rates and types of licit and illicit drug use in Nye County; costs of medical care, additional therapeutic and prescription drug purchases, and other treatments for patients suffering from opioid-related addiction or disease, including overdoses and deaths; costs of counseling and rehabilitation services; costs for treatment of infants born with opioid-related medical conditions; rates and costs of welfare for children whose parents suffer from opioid-related disability or incapacitation; costs of opioids distributed through Nye County healthcare programs; and costs of law enforcement and public safety issues relating to the opioid epidemic.

The Firms propose to work with the County to ascertain which of these costs fall upon it, to further ascertain which departments within the County may possess statistics or cost data relevant to this potential litigation, and to work with those departments to enable the sharing, with all necessary confidences, of those statistics and data with the Firms to further their investigation and prosecution of this potential litigation.

6. Proposed Fee Agreement

Provide a copy of your firm's proposed fee agreement. The fee agreement must address Nye County's exposure for any costs or expenses. The fee agreement must address indemnification for Nye County against any liability that could arise out of this litigation.

The Firms attach a proposed contract with Nye County to this response (*see Exhibit 4*). Details for the payment of fees and the reimbursement of expenses is set forth in the proposed contract.

Nye County would see cost savings by filing in federal court and participating in the MDL process that is being established. The MDL process will promote efficiency and prevent redundant and repetitive efforts from being made at an increased expense to the County. The structure of the MDL process and use of a bellwether trial process also significantly reduces the exposure of the County or any plaintiff to an adverse cost judgment.

As stated in the proposed Contract, there is no reimbursement of litigation expenses if there is no recovery.

New Mexico Office of Attorney General, Plavix Case

State of New Mexico, ex rel. Hector H. Balderas, Attorney General vs. Bristol-Myers Squibb Company, et al., Case No. D-101-CV-2016-02176, First Judicial District Court, County of Santa Fe, New Mexico

Nature of the litigation and Baron & Budd's role:

This case was brought by the State of New Mexico against Bristol-Myers Squibb Company, Sanofi-Aventis U.S. LLC, Sanofi US Services, Inc. and Sanofi-Synthelabo Inc., for claims relating to Defendants' false, deceptive, and unfair labeling, promotion, and marketing of their prescription antiplatelet drug, Plavix (clopidogrel bisulfate). The State of New Mexico's complaint alleges that since March 1998, Defendants knew or should have known that Plavix has a diminished or no effect on a substantial and significant percentage of New Mexico's patient population and that those patients for whom Plavix would not work could have been identified through a simple genetic test. The State further alleges that Defendants failed to disclose that information and, in fact, sought to push sales of Plavix ever higher through their campaign to replace much cheaper and safer aspirin with Plavix. On March 23, 2010, at the insistence of the Food and Drug Administration, Defendants finally added a "black box warning" to Plavix's label that discloses that Plavix does not become effective until it is metabolized into its active form by the CYP2C19 liver enzyme, a fact well known to Defendants more than a decade earlier. The State's complaint alleges causes of action under the New Mexico Unfair Practices Act, the

Exhibit 2: Baron & Budd Representing States' Attorneys Generals in Pharmaceutical Litigation

New Mexico Medicaid Fraud Act, the New Mexico Fraud Against Taxpayers Act, and for common law and equitable claims for fraud, unjust enrichment, and negligence.

This case was filed in September 2016 and litigation is on-going. Baron & Budd attorneys serve as co-counsel with other firms and the State's Office of the Attorney General. Defendants filed a Motion to Dismiss or, in the alternative, Stay or Dismiss Proceedings until resolution of a federal *qui tam* case pending in New Jersey on November 28, 2016. On January 6, 2017, the State filed its response. The court ultimately stayed the case pending resolution of the *qui tam* action. On June 27, 2017, the federal *qui tam* action was resolved and the stay lifted. On August 10, 2017, Defendants filed supplemental briefing in support of their motion to dismiss. The State's response is due on August 31, 2017. No hearing date has been set by the court. The State believes it will prevail on the Motion to Dismiss after which responsibilities of counsel will include directly engaging with the Deputy Attorney General and co-counsel on pleadings, strategy of the litigation, and a lengthy discovery process with multiple depositions and complex motion practice.

LEGAL SERVICES AGREEMENT

NYE COUNTY, NEVADA (hereinafter "CLIENT") hereby retains outside counsel, pursuant to the Nevada Rules of Professional Conduct, on a contingent fee basis, to pursue *all* civil remedies against those in the chain of distribution of prescription opiates responsible for the opioid epidemic which is plaguing the **NYE COUNTY, NEVADA**, including, but not limited to, filing a claim for public nuisance to abate the damages caused thereby. **J. Burton LeBlanc, Esq.** of the law firm of Baron & Budd PC shall serve as Lead Counsel. CLIENT authorizes Lead Counsel to employ and/or associate additional counsel, with consent of CLIENT, to assist Lead Counsel in the just prosecution of the case. CLIENT consents to the participation of the following firms:

POWELL & MAJESTRO PLLC
405 Capitol Street #1200
Charleston, West Virginia

BARON & BUDD, PC will serve as liaison between CLIENT and the firms listed above.

In consideration, CLIENT agrees to pay twenty-five percent (25%) of the total recovery (gross) as an attorney fee whether the claim is resolved by compromise, settlement, or trial and verdict (and appeal). The CLIENT acknowledges this fee is reasonable given the time and labor required, the novelty and difficulty of the questions involved, and the skill requisite to perform the legal service properly, the likelihood this employment will preclude other employment by the lawyer(s), the fee customarily charged in the locality for similar legal services, the anticipated (contingent) litigation expenses and the anticipated results obtained, the experience, reputation, and ability of the lawyer or lawyers

performing the services and the fact that the fee is contingent upon a successful recovery. **There is no fee if there is no recovery.**

This fee applies to any sums, benefit or value obtained on your behalf, whether monetary or nonmonetary, including equitable remedies including abatement, and whether recovered by award, judgment, settlement, bankruptcy proceedings, government-imposed reparations proceedings, regulatory relief/settlement, non-monetary remedial benefit provided by defendants or otherwise. Gross recovery is the value, at the time of settlement or collection (whichever confers the greater value), of any sums, benefit or value obtained on your behalf, as set out above. **The gross recovery shall be calculated on the amount obtained before the deduction of costs and expenses.** CLIENT grants Attorneys an interest in a fee based on the gross recovery. If a court awards attorneys' fees, Attorneys shall receive the "greater of" the gross recovery-based contingent fee or the attorneys' fees awarded.

The division of fees, expenses and labor between the law firms will be decided by private agreement between the law firms which shall be subject to review by the CLIENT, and any division of fees will be governed by the Nevada Rules of Professional Conduct including: (1) the division of fees is in proportion to the services performed by each lawyer or each lawyer assumes joint responsibility for the representation and agrees to be available for consultation with the CLIENT; (2) the CLIENT agrees to the arrangement and the agreement is confirmed in writing; and (3) the total fee is reasonable. In the event that the contingent fee portion of this agreement is determined to be unenforceable for any reason or the Attorneys are prevented from representing CLIENT on a contingent fee basis, CLIENT agrees to pay a reasonable fee for the services rendered.

The law firms agree to advance all necessary litigation expenses necessary to prosecute these claims, and the CLIENT shall have no obligation to advance any costs or to make any financial contribution to the lawsuit while the litigation is pending. **All such litigation expenses, including the reasonable internal costs of electronically stored information (ESI) and electronic discovery generally or the direct costs incurred from any outside contractor for those services, will be deducted from any recovery after the contingent fee is calculated. There is no reimbursement of litigation expenses if there is no recovery.**

Funds that are recovered on behalf of CLIENT shall flow through the _____ and may be expended on education, law enforcement and jails, healthcare, or in any other way that the _____ deems appropriate.

The Client shall be kept reasonably informed about the status of the matter in a manner deemed appropriate by the Client. The Client at all times shall retain the authority to decide the disposition of the case and personally oversee and maintain absolute control of the litigation.

Upon conclusion of this matter, the CLIENT shall be provided with a written statement stating the outcome of the matter and, if there is a recovery, showing the remittance to the client and the method of its determination as required by the Nevada Rules of Professional Conduct. The closing statement shall specify the manner in which the compensation was determined under the agreement, any costs and expenses deducted by the lawyer from the judgment or settlement involved, and, if applicable, the actual division of the

lawyers' fees with a lawyer not in the same firm, as contemplated by the Nevada Rules of Professional Conduct.

Nothing in this Agreement and nothing in the Attorneys' statement to the CLIENT may be construed as a promise or guarantee about the outcome of this matter. The Attorneys make no such promises or guarantees. Attorneys' comments about the outcome of this matter are expressions of opinion only and the Attorneys make no guarantee as to the outcome of any litigation, settlement or trial proceedings.

Further, the execution of this Agreement by _____ is specifically conditioned upon the _____ passing a resolution authorizing this Agreement and the execution by the _____.
