Re: Comments on Proposed Amendments to NCC 17.06 Relating to the Zoning and Special Use Permit Requirements for Marijuana Establishments

Greetings Commissioners,

We would like to present the following comments and requests to the proposed amendments to Nye County Code 17.06 relating to the Zoning and Special Use Permit requirements for Marijuana Establishments:

17.06.040 D (10) - We request that the recordings from cameras which must be maintained in a retrievable manner for at least sixty (60) days from the date of the recording reflect the State requirement which is thirty (30) days. There have not been any issues since inception of this program that have warranted the additional hold time which can be costly. Several surrounding jurisdictions reflect the State requirement and it makes sense to have continuity with Nye County.

17.06.040 D (11) – Currently, the County requires a security guard to be on duty 24 hours a day, 7 days a week. It is financially burdensome to many facilities which has been demonstrated as some waivers have already been requested and approved by the Board. We would propose a suggestion that the facilities be given the option of being remotely monitored via video, or of having a security guard on duty at all times.

17.06.040 D (8) & F (2) - Currently, if a facility intends to request outdoor cultivation, they are required to obtain a waiver. We have no objection to continuing that practice, especially inside the PRPD. We strive to be good community partners and understand outdoor cultivation in a densely populated area could cause some citizens concern. Additionally, as more and more hemp and marijuana farms erect, the chance of cross-pollination increases which increases the potential of destroying crops. The current waiver process allows for this specific detail to be highlighted during the notification portion of the process.

17.06.040 D (16)- We would request that the section outlining Water Impact Plans be removed. During their December meeting, the WDGB was presented with all the data for water usage and chemistry reports. After review, it was concluded that there was no significant impact. The WDGB voted unanimously to request that the BoCC have the tracking of Marijuana Establishments via the Water Impact Plans by the WDGB be discontinued.

SB487 which was approved last legislative session, included language in Sec. 15 (5) (e) that limits local jurisdictions on enacting or enforcing regulations that would be more restrictive than or conflict with regulations of the State regarding certain items governing marijuana. Included in that language were items involving transportation except for the requirement of notification of transport and direct transportation to a consumer. We would request that the Security and Transportation Plan Minimum Checklist language be changed to reflect that all transportation requirements reflect State Standards as required by SB487.

Thank you for your time and consideration; it is very much appreciated.

Sincerely,

Sarah Chapman
President
