1.) What measurable outcomes did you establish for this project and what indicators did you use to measure performance? To what extent did your project achieve these outcomes?

Our goal for 2023 was to spay/neuter 1500 dogs and cats. We were able to fix 1241 animals, 1107 cats and 134 dogs. We have fixed 178, spay/neuters in January and February 2024; 155 cats and 23 dogs.

2.) What, if any, challenges did you face during the project and what actions did you take to address these challenges?

We had a huge challenge getting enough low cost spay and neuter appointments for both dogs and cats. Our dog low cost spay and neuter veterinarian is no longer able to provide these services for us. We are continuing to search for a veterinarian to work at the shelter's spay and neuter clinic.

3.) What impact do you think this project has had to date? What are the lessons you learned from undertaking this project?

This project has a huge impact on the community. This project allowed us to spay/neuter pets for people that could not afford these services. Unwanted pets were eliminated. Also, we reduced the number of feral cat babies. We must reduce pet overpopulation.

4.) What will happen to the project after this grant has ended? Will project activities be sustained? Will project activities be replicated? If the project will be sustained or replicated, what other funding sources will allow this to occur? Please note your significant partners in this project and if/how you will continue to work on this activity?

If we are unable to generate substantial additional income, our TNR services are the most at risk of being reduced or eliminated. Since we are no longer able to provide low cost dog spay/neuters in Pohrump, the shelter will need to start providing these services. We will continue with grant requests and events to fund services.

5.) Over the entire project period, what were the key publications and communications activities? How were they disseminated or communicated? Products and communications activities may include articles, issue briefs, fact sheets, newsletters, survey instruments, sponsored conferences and workshops, websites, audiovisuals, and other informational resources?

Newspaper articles have been written in the local paper. We place program updates and events on Facebook and websites. We distribute various flyers and handouts at our office and yard sales.
