Nevada Revised Statutes

NRS 403.170 Designation of main, general and minor county roads; immunity of State and county from liability resulting from use of minor county roads; reclassification and abandonment of roads; hearing.

1. The board of county highway commissioners of each of the several counties of the State of Nevada shall:
 - (a) Lay out and designate which of the roads, generally termed public highways, are the most important to the people of the whole county and over which there is the greatest amount of general public travel and shall designate these roads as main county roads.
 - (b) Lay out and designate other roads of the county over which there is general public travel, and which are generally termed county roads, and shall designate these roads as general county roads.
 - (c) Lay out and designate other roads which are neither main nor general county roads but have been established by usage, or were constructed for use by the public, and shall designate these roads as minor county roads. This section does not require any maintenance for minor county roads. The State and the county are immune from liability for damages suffered by a person as a result of using any road designated as a minor county road.
2. The board of county highway commissioners may, from time to time, reclassify the roads and may lay out new roads of any class, or the board may change or abandon any roads termed as public highways.
3. The designation of a new road as a main county road, as a general county road or as a minor county road, or the reclassification of any road, or the abandonment of any road does not become effective until after a public hearing is held at which parties in interest and citizens have an opportunity to be heard. At least 10 days' notice of the time and place of the hearing must be published in a newspaper of general circulation in the county.

[1: Art. 4:257:1913; 1919 RL p. 2903; NCL § 5375]—(NRS A 1979, 1173; 1993, 1399)

NRS 403.190 Map of county roads filed by board of county highway commissioners; authority of user to file map of minor county road; fees.

1. Except as otherwise provided in subsection 3, upon laying out and designating the county roads as required in [NRS 403.170](#), the board of county highway commissioners shall cause a map of the county to be made, showing the county roads and their designations. The board shall file one copy of the map with the clerk of the board of county highway commissioners, one copy with the Department of Transportation, one copy with the county clerk and one copy with the county recorder.
2. When any road has been designated by the board of county highway commissioners as a standard county road, as provided in [NRS 403.180](#), that designation must be made on the copies of the map on file with the clerk of the board of county highway commissioners, the county clerk, the Department of Transportation and the county recorder.
3. **The board of county highway commissioners need not include a minor county road upon the map required by subsection 1.** Any person who uses a minor county road may file with the county recorder a map showing the location of the road, appropriately emphasized in black ink upon the map by the person filing it. The map must:
 - (a) Be a topographical map prepared by the United States Geological Survey, unless the board of county highway commissioners determines that other specific maps are acceptable.
 - (b) Have written on its face, in black ink, the townships, ranges and sections through which the road traverses.

→ **The map so filed is evidence of the existence and location of the road.** Each person filing such a map shall pay to the county recorder a fee of \$17 for the first sheet of the map plus \$10 for each additional sheet.

[3: Art. 4:257:1913; 1919 RL p. 2903; NCL § 5377]—(NRS A 1979, 1174; 1993, 1400; [2001, 3220](#))

NRS 405.191 “Public road” defined; county roads and highways may be established on rights-of-way over certain public lands. As used in [NRS 405.193](#) and [405.195](#), “public road” includes:

1. A United States highway, a state highway or a main, general or minor county road and any other way laid out or maintained by any governmental agency.
2. Any way which exists upon a right-of-way granted by Congress over public lands of the United States not reserved for public uses in chapter 262, section 8, 14 Statutes 253 (former 43 U.S.C. § 932, commonly referred to as R.S. 2477), and accepted by general public use and enjoyment before, on or after July 1, 1979. Each board of county commissioners may locate and determine the width of such rights-of-way and locate, open for public use and establish thereon county roads or highways, but public use alone has been and is sufficient to evidence an acceptance of the grant of a public user right-of-way pursuant to former 43 U.S.C. § 932.
3. Any way which is shown upon any plat, subdivision, addition, parcel map or record of survey of any county, city, town or portion thereof duly recorded or filed in the office of the county recorder, and which is not specifically therein designated as a private road or a nonpublic road, and any way which is described in a duly recorded conveyance as a public road or is reserved thereby for public road purposes or which is described by words of similar import.

(Added to NRS by 1979, 1174; A 1981, 923; 1993, 1427; 1997, 1615)

NRS 405.193 Public agency not required to maintain or accept road made public by prescriptive use; immunity of county from liability arising from use of certain public roads.

1. No public agency is required to maintain any public road which is so designated only because it meets the requirements set forth in subsection 1 or 2 of [NRS 405.191](#) nor is any public agency required to accept any public road as a main, general or minor county road.

2. No action may be brought against the county, its officers or employees for damage suffered by a person solely as a result of the unmaintained condition of a road made public pursuant to [NRS 405.195](#).

(Added to NRS by 1979, 1174; A 1993, 1428)
